REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

READ THE FOLLOWING PAPERS :—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Government of Mysore, No. 11, dated Bangalore, 11th April 1890.

I have the honor to submit for sanction the marginally noted papers relating to the proposed revision of the assessment of the Malur Taluk of the Kolar District.

1. Deputy Superintendent's Report No. 123 of the 28th March 1890, with its accompaniments.
2. Survey Superintendent's letter No. 1 of the 1st instant.
3. Kolar Deputy Commissioner's letter No. 49—34 of 8th idem.

2. The rates as now proposed were fully discussed between Colonel Rutherfurd and myself in the first instance and they have therefore my full approval.

3. The points which chiefly recommend themselves in the proposals now submitted are the absolute consistency of the maximum rates, as compared with those already adopted in adjoining settled Taluks, and the moderate character of the rates themselves.

4. The grouping, for the purpose of assessment, has been carefully done. No 4th group, as in Bowringpet, was formed for the purpose of assessment because the Malur Taluk is on the whole more uniform in the condition of its villages than Bowringpet, and contains fewer scattered and outlying bits. The wet and garden maximum rates are just the same as in all adjoining Taluks, excepting Hoskote in which the wet maximum rate went as high as Rs. 9. I think Colonel Rutherfurd rightly refrained from placing villages near Tyakal in group I, even although they are all close along the Railway line. Tyakal is but a very small station and there is a marked absence of communication between it and surrounding villages. The natural flow of traffic is towards Malur which, unlike Tyakal, is approachable on all sides by good roads. The principle generally of the grouping has been correct.

5. The Taluk under report, to judge from the figures given at para 8 of Colonel Rutherfurd's report has not, for some years, shown any very satisfactory progress from a revenue point of view. Considering that the Taluk bears a good name and is unusually well situated and populated, a more favorable expansion of the revenue might have been expected. I believe the whole fault to lie in the unequal distribution of the old assessment. There is no other reason whatever why the revenue should, so to speak, have stood still for so many years. The result of the proposed revision of the assessment is to give Government an increase, over the collections of 1888—89, of just under Rs. 10,000, after providing for pay of village officers and contribution to Irrigation Fund. It will be observed however that the collections of 1888—89, Rs. 66,822, were very low and that in former years, notably in 1868—69, Rs. 76,178, the collections reached a very much higher figure.

6. The Deputy Commissioner expresses himself satisfied as to the suitability of the proposed rates and I recommend them very confidently for adoption.

7. I beg that early intimation may be given to me when Government has approved of these rates as everything is ready to proceed with their announcement.

8. The submission of these papers has been considerably delayed, first of all owing to the reasons given by Colonel Rutherfurd in the concluding para of his report and secondly because there has been a large amount of sickness amongst the office hands in my office and in the Deputy Superintendent's office but chiefly in the latter where the year has been most disastrous in the matter of sickness.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890

From the Deputy Superintendent, Mysore Revenue Survey, To the Superintendent, Mysore Revenue Survey, No 123, dated Bangalore, 26th March 1890

I have the honor to submit the following proposals for the revision of the assessment of the Malur Taluk of the Kolar District.

2. The accompanying report, prepared by Mr. J. P Barker, Assistant Settlement officer, during classing operations, describes so fully the physical characteristics, climate, system of agriculture, and irrigation and other cognate matters essential for the purposes of settlement that it is unnecessary for me to go on over the same ground I shall however, have frequent occasion to refer to portions of his report hereafter.

3. The Malur Taluk is divided into 6 Magams as shown below —

No	Name of Magam	Government Villages	Sarva Inam	Jodi Inam	Kavangatta	Mal al Jodi	Plantations	Total	Remarks
1	2	3	4	5	6	7	8	9	10
1	Malur ..	61	8	24	6	4	4	107	
2	Lalkur ..	19	1	10	1	1	2	34	8 Villages of the settled Taluk Hoskote transferred to Malur omitted
3	Narsapur .	30		10	6		.	46	
4	Masti ...	48	.	12	2	1		63	
5	Huldenhalli ..	80		8	1	1	.	90	
6	Tyakal ...	71		7	1	3		82	
		309	9	71	17	10	6	422	

At the time of the revision of taluk boundaries in 1881—82, the Malur Taluk was abolished and its villages were distributed between the adjoining taluks, the largest number going to Bowringpet. In 1886, the taluk was reconstituted and now comprises the 422 Government and Inam villages shown in the above statement The Taluk of Malur is on the whole fairly regular in shape with the exception of the northern portion where the Narsapur Magam projects into the adjoining Taluk of Kolar. The whole or, at least, the greater portion of this magam might be transferred with advantage to Kolar, the Kasaba town of which taluk is connected with it by a good road, and is distant from it only 10 *miles*. The Bangalore-Madras Railway runs right through the taluk, east and west, dividing it into two unequal parts by far the larger portion being south of the line. Kasaba Malur is within five miles of the western boundary, but is easily accessible from all parts of the taluk except the south-east, where no roads exist. Tanks are very numerous and are described in detail in Mr. Barker's report under the head of "Irrigation" There are no kavals or forests but a few plantations are met with in the Malur and Lakkur Magams

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

4. The agricultural resources of the taluk are summarised in the following statement the details of which were collected by the classers during classing operations :—

Government Villages.	Houses.	Population.	Square miles.	Cattle	Ploughs.	Carts.	Markets	Remarks.
1	2	3	4	5	6	7	8	9
309	7,087	36,218	198	*11,160	5,603	1,362	7	Details of two villages transferred to Hoskote are omitted. *Plough-cattle only, others=58,956.

The figures in column 3 represent the population of the Government villages only. According to the Census of 1881, the total population of the whole taluk, inclusive of 113 inam villages, was 33,801. At that time, the country was still suffering from the effects of the famine. It is therefore satisfactory to see that a decided improvement has set in the population of the Government villages alone exceeding that of the whole taluk in 1881 by 2,447 souls. The density of the population to the square mile is 183 : on the cultivated area it is 575. The number of plough cattle is unusually small, being in fact insufficient for a yoke per plough.

5. The following statement shows how the lands of the taluk have been divided by the Survey.—

Description of Land.	Government.		Inam.		Total.		Grand Total, Government and Inam.
	Occupied.	Waste.	Occupied.	Waste.	Occupied.	Waste.	
1	2	3	4	5	6	7	8
Dry crops ...	34,460	8,535	8,002	...	42,462	8,535	50,997
Rice ...	3,995	927	1,527	...	5,522	927	6,449

Area of Inam villages ...	...	...	...	..	...	...	34,353
Area of plantations ...	...	...	...	...	...	...	1,834
Gross area of the whole Taluk, *i. e.*, about 254 square miles ...					...	...	162,901

6. The proportion of waste to cultivated under the three heads of dry crop, rice and garden is comparatively small. Most of the dry crop waste is of a fairly good quality except in the Masti and Huldenhalli Hoblis where it is of an inferior description with rock cropping up at intervals. As, however, a large area of this waste land is admirably adapted for grazing purposes, and as the export of their surplus produce, if any, is difficult owing to the absence of communications, the raiyats devote themselves more to the breeding of cattle than to cultivation. Considering how entirely dependent on rain-fed tanks rice cultivation is, it is satisfactory to see that the waste area is so small. Sugar-cane is extensively cultivated in the Masti and Tyakal Hoblis, and 2 crops of rice are raised below some of the larger tanks. There are a few good arecanut, cocoanut and betel-vine gardens but they are not of large extent.

7. The incidence of the old assessment on the three descriptions of cultivation will be apparent from the following Maganivar statement :—

No.		Dry Crop.			Rice.			Garden.		
		Acres by Survey.	Old Collections.	Average Rate.	Acres by Survey.	Old Collections.	Average Rate	Acres by Survey.	Old Collections.	Average Rate.

2	Lakkur ...	4,209	5,733 1 5 16		483	2,115 1 7 1		199	874 4 6 3	
3	Narsapur ...	4,117	5,629 1 5 11		803	3,095 3 13 8		242	643 2 10 6

5	Huldenhalli ...	5,018	5,434 1 1 3		507	2,039 4 0 4		186	733 3 15 1	
6	Tyakal ...	6,327	7,661 1 3 4		693	3,085 4 7 3		365	1,320 3 9 10	
		34,460	42,563 1 3 9		3,995	16,546 4 2 3		1,828	7,495 4 1 7	

The above rates are obtained by dividing the old collections, under each head, by the Survey acres, and appear to be very moderate on the whole. The actual inequality of the rates, however, will be understood from the statement in para 8 of Mr. Barker's report, and from a statement which I have given at para 22 showing the percentage of increase and decrease between the old and new assessment in a few villages of each group. When batayi was converted into nagadi in 1866—67, such inequality, instead of being reduced, was in fact increased owing to the total absence of sufficient and trustworthy data on which to fix the rates. The inevitable result was an increase in the extent of waste rice lands, due probably as much to the sudden change in the form of assessment as to the unequal pressure of the rates.

8. The following statement shows the actual realizations of revenue for the last 25 years and the prices of the staple products of the taluk for the same period: —

An examination of the figures in column 4 under the head of "Collections" shows that there have been no startling fluctuations in the realizations of revenue for the last 25 years. On the other hand with the exception of the year 1877—78 (if the famine year of 1876—77, when remissions to the amount of Rs. 23,079 were granted, be omitted), the revenue has shown a more or less steady downward tendency subsequent to 1871—72 in which year the realizations were Rs. 71,649. This total has not been approached since, and the difference between the first and last years of the period of 25 years amounts to no less than Rs. 9,331. Under the head of "Batayi" the amounts realized vary enormously from year to year as might be expected after the conversion of Batayi into Nagadi in 1866—67, from which date the decrease in this description of cultivation has been rapid. In fact Batayi cultivation may be said to have ceased altogether. In illustration of this decrease I give the realizations for each fifth year of the 25 under report beginning with 1864—65. They are as follows:—

Rupees 12,058, Rs. 389, Rs. 2,914, Rs. 2,270, Rs. 173 and Rs. 31.

9. For purposes of assessment, I propose dividing the taluk into 3 groups which together with the maximum rates, are shown in the subjoined statement:—

Group.	No. of Villages.	Maximum rates.			
		Dry Crop.	Rice.	Garden.	
				Tank	Well.
1	2	3	4	5	6
I ...	69	2·12	8·0	12·0	8·0
II ...	161	2·8			
III ...	79	2·4			

The above grouping is based principally on the existence or absence of communications, the variations of climate over such a small area being too slight to require notice. The first group, which comprises villages within a radious of 5 miles of the kasaba town has the advantage of numerous roads converging on Malur, where there is also an important station of the Bangalore-Madras Railway. The villages of the 2nd group are fairly well off for roads except those in the northern portion of the Huldenhalli Magani and most of those in the Tyakal Magani. There is, however, a small station at Tyakal, whence a road, begun but not yet completed, goes as far as the boundary of the Malur Taluk, and which will, it is to be hoped, be eventually continued to Kolar. The 3rd group represents the greater portion of the Huldenhalli Magani and some villages of the adjoining Tyakal Magani. This group is practically without communications of any kind and has not even the advantage of being within easy reach by cross country cart-tracks of the Tyakal station. A road from Masti to Tyakal through the south eastern portion of the taluk with a branch to Huldenhalli would be of immense benefit to the raiyats, who are practically debarred from exporting their surplus produce.

10. The results of the proposed rates are tabulated in the following statement :—

13. The result of the proposed rates on all the arable land, occupied, waste, and Inam is shown below, and at the same time, contrasted with the old collections :—

14. The grazing in 1888—89 realized the sum of Rs. 3,930, and for purposes of comparison I have retained the same amount.

15. The Local Fund produced Rs. 5,387. Under the proposed settlement the amount from Government occupied lands will be Rs. 5,386 and from minor Inams Rs. 1,396 or a total of Rs. 6,782.

16. The general result of the proposed settlement is summed up below :—

	Rs.
Land revenue of 1888—89	66,774
Local Fund	5,887
Grazing	3,930
	76,091

	Rs.
Survey assessment on occupied lands ..	86,169
Local Fund	6,782
Grazing	3,930
	96,881

17. Omitting the proceeds from Local Fund and grazing, there is an increase of assessment on occupied lands of Rs. 19,395.

18. The pay of village officers will require about Rs. 6,500.

19. The contribution to the Irrigation Fund will amount to about Rs. 3,000.

20. Deducting Rs. 9,500 the total of the items in the two last paras : there remains a net increase of Rs. 9,895 on the old assessment.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

21. The incidence of the new assessment generally compared with the old will be apparent from the following statement :—

Description of Cultivation.	Acres by Survey.	Average rate per acre under old system.	Average rate per acre under new system.	Remarks.

22. The following statement gives a few cases of increase and decrease of assessment taken from each of the three groups into which the taluk has been divided and clearly indicates the inequality of the old rates :—

23. The usual classwar statement, a list of Inam villages, showing the nature of Survey applied to each, and a sketch map of the taluk illustrating the grouping of the villages, are forwarded with this report.

24. In conclusion I regret the delay that has occurred in the submission of this report, but it has been unavoidable owing to the careless manner in which the vernacular statements were prepared by the Amildar. They were so full of mistakes and erasures, and the discrepancies between the totals of different statements, which ought to have tallied, were so serious, that the papers had to be returned two or three times for comparison and correction.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

From the Assistant Settlement Officer in charge of E. Establishment, To the Deputy Superintendent, Mysore Revenue Survey, No. 46, dated Bangalore, 12th July 1889.

I have the honor to report on the Malur Taluk of the Kolar District, the classification of which has recently been completed.

2. *General Description.*—The taluk is situated between Kolar, Hoskote and Bowringpet, having on its southern border the Hosur Taluk of H. I. M.'s Territory. Its Head-quarters, Malur, is by road 29 miles from Bangalore and 27 by rail, the town being a mile from the Railway Station. Its length from north to south is, approximately, 26 miles and its breadth 18. The whole area of the taluk is 152,564 acres, or a little more than 238 square miles. The area classed, excluding Inam villages, being 127,040 acres. In character it is slightly undulating, with a few rocky hills in the north, near Narsapur, in the east, close to Tyakal, and in south, throughout the Masti and Huldenhalli Hoblis. The south-eastern portion is sparsely wooded and, at the same time, extremely rocky. The rest of the taluk is open country and fertile. The shape is fairly regular. It would be more so if the northern villages of the Narsapur Hobli were cut off from it, for this part is wedged in between the Kolar and Hoskote Taluks, to either of which it should more suitably belong.

3. *Sub-divisions, Villages, &c.*—The taluk has six hoblis and altogether 434 villages (including six Government plantations), of which only 319 are Government villages. The form below shows the number of each description per hobli :—

No.	Name of Hobli.	Government.	Jodi Inam.	Kayamgutta.	Sarva Inam.	Mahal Jodi.	Plantations.	Total.	Remarks.
1	Malur ...	62	25	6	8	4	4	109	
2	Lakkur ...	28	10	1	1	1	2	43	Nine of these have been settled.
3	Masti ...	48	12	2	...	1	...	63	
4	Huldenhalli ...	80	7	1	...	2	...	90	One, a nazara of Huldenhalli, is included as a separate village.
5	Tyakal ...	71	7	1	...	3	...	82	
6	Narsapur ...	30	10	7	...	...	...	47	Four were classed with the Hoskote Taluk.
	Total.....	319	71	18	9	11	6	434	

This report only deals with the Government and Kayamgutta villages and one Sarva Inam.

Eight Government villages and one Jodi Inam having been transferred from Hoskote after the settlement of that taluk are not noticed.

Intermixed with Malur villages are several belonging to H. I. Majesty's Government; for instance, Arlere in the Malur Hobli and Talkampalli, Tolsandede Rayasandra, Bavipalli, and Tursandpalli in the Masti Hobli. One village of Malur *viz.*, Koldaspur is isolated in the Hosur Taluk of British Territory. Three, *viz.* Apsandra, Jodi Bijapur and Kayamgutta Lingapur, are situated in the Hoskote Taluk.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

4. *Population.*—The population according to the census taken in 1881 was 33,801. The population per Hobli is given in the form below :—

Hobli.	Men.	Women.	Boys.	Girls.	Total.
Malur	2,919	2,756	1,667	1,351	8,693
Lakkur	1,161	1,198	838	810	4,007
Masti	2,188	2,110	1,006	915	6,551
Huldenhalli	1,170	1,026	226	214	2,636
Tyakal	3,113	2,937	234	405	6,689
Narsapur	1,155	1,542	831	794	4,622
Total.. ...	12,306	12,169	4,802	4,521	33,801

5. *Irrigation.—Tanks.*—The taluk is well provided with irrigation tanks having no less than 385, of which 55 are of good size. The best are the following, *viz.*, (1) the Arsikere Amanikere, (2) the Huldenhalli, (3) Abbihalli, (4) Baragur, (5) Lakkur, (6) Shivarpatna Amanikere, (7 and 8) two Masti tanks, (9) Narsapur, (10) Malur, (11) Hudenur, (12) Dod Valambi, (13) Nilhalli, (14) Tambihalli, (15) Shivar Amanikere.

(1) The Arsikere Amanikere.—This ranks first in the taluk. It is in the Huldenhalli Hobli and irrigates the lands of Arsikere, Timmayakanhalli, Venkatrajanhalli and Jinagatimanhalli from its main channels and indirectly those of Vad Agrahar, Inam Komanhalli, Badakanhalli and a Mazara of Huldenhalli. It is an excellent tank and, I believe, is seldom known to fail. Being close below the Huldenhalli tank, it receives its surplus water. Sugar-cane is extensively cultivated under it.

(2). The Huldenhalli in Kasaba Huldenhalli is also a first class one and retains water all through the year. It has but a small area to irrigate. Sugar-cane is grown below to some extent without assistance from wells. There are also a few gardens of areca and cocoanut. Repairs, it is understood, have been sanctioned by Government, but have not yet been commenced.

(3). The Abbihalli (Malur Hobli) covers a considerable tract of land, but is shallow. It receives the overflow from the Tambihalli tank, beneath which it lies. Cane is grown below to a moderate degree, unaided by wells and it is capable of producing two crops of rice. All its lands are under cultivation, there being no waste. No gardens exist below it.

(4). The Bargur (Lakkur Hobli).—The bund and sluices of this tank are not in good order but are likely to be renewed by Government. When the necessary repairs have been executed, it will be one of the very best in the taluk Two crops of rice and sugar-cane are obtained, the latter and panvel under wells.

(5). The Lakkur (in Kasaba Lakkur) is situated below the Baragur. This tank has recently been put into order at a cost to Government of about Rs. 5,000. Two rice crops are taken and there are some first rate gardens under it.

(6). The Shivarpatna Amanikere (Narsapur Hobli) occupies a large area but is evidently wanting in depth. Its bund is good but low. It has a fair stretch of areca and pan gardens and a little cane on the high lands.

(7 & 8). The two Masti tanks.—There are two very good tanks in Kasaba Masti. One has recently been repaired, the other is likely soon to be

taken in hand. Numerous superior gardens exist under these and three other tanks in this village and cane is more are less extensively cultivated.

(9). The Narsapur (in Kasaba Narsapur) although a large tank seems to be insufficient for the whole of the area it should irrigate, in consequence of which some of the fields furthest from the sluices are waste. Good crops of rice are obtained and with aid from wells cane is grown and also a little plantain and pan. The soil under this tank is of very good quality.

(10). The Malur (in Kasaba Malur) is also a large tank but shallow. It has but a small area to irrigate and suffices for two crops of rice. No cane was irrigated this year solely from the tank but there was a little under wells This tank is undergoing improvements at the hands of Government.

(11). The Kudenur (Malur Hobli) is a useful one capable of producing two crops of rice. There are some gardens and a little cane under wells.

(12). The Ded Valambi (Narsapur Hobli) is below the Narsapur tank and is undergoing considerable improvement at Government expense, the waste weir and bund being raised and the sluices renewed. Many of the lands are waste owing to the tank having been out of repair for some time, but there are a few promising gardens. In the future it will be a valuable tank. The soil beneath is of good quality.

(13). The Nilhalli (Tyakal Hobli) lasts well through the year. Mulberry was extensively cultivated under it this year, with a little cane, pan and plantain.

(14). The Tambihalli (Malur Hobli).—This is above (No. 3) the Abbihalli tank. It is large though shallow and the irrigated area is small. Cane and a little pan are found, the former solely irrigated from the tank.

(15). The Shivar Amanikere.—Both Kartika and Vaisaka crops of rice can be obtained and cane is grown under wells.

Besides the above there are many other good tanks. The series to which Nos. 3, 4, 5, 10 and 14 belong comprises several useful ones.

A few have been thrown out of use by the breaching of the bunds. Some of these would be profitable if repaired, notably, the Rajenhalh in the Masti Hobli, many of the lands of which have been lying waste for some years. A few fields by sinking wells, have been converted into garden, but the gardens are cultivated under rather unfavorable circumstances. Another is the Santhalli in the Malur Hobli, besides the Tiramalhatti (Huldenhalli Hobli), which, I believe, is likely to be repaired and the Dodadanvalli (Masti Hobli). The Madeval tank (Malur Hobli) also deserves attention. It is a good tank but the bund requires renovating and the sluices are out of order.

A new tank is being made in Mandhalli (Narsapur Hobli). It was under construction during classing operations but had not sufficiently approached completion to allow of its being separately measured and of the lands below being divided into suitable numbers.

Wells.—There are comparatively few pakka built wells with stone revetments. They are mostly stone faced on the side where the "yata" is placed, or, where more than one "yata" is used (as is sometimes the case), stone work supports the several "yatas." I observed no "kapile" wells in the taluk.

Soils.—Red is the predominating color of the soil. In the dry lands, it is generally of good quality (the chief deteriorating ingredient being sand) and has considerable depth. This soil is common in all the heblis, but is best in Malur and Lakkur. Towards the hills of Narsapur and Tyakal, it becomes inferior, altering in color from red to grey and falling off in quality and depth. In the south part of the Taluk (Huldenhalli and Masti Hoblis) it is of a poorer sort with rock cropping up at intervals. In wet lands there is little fault to find with it, the prevailing color is red also and the chief fault sand.

Proceedings of the Government of His Highness the Maharaja of Mysore (Revenue),—dated 1st May 1890.

7. *Crops.*—The dry crops are those common to the neighbouring Talaks, *viz.*, (Canarese names) ragi, avare, sajjé, togari, hurali, uddu, hosaru, nela kadale kayi, sáné, navané, baragu, alsandi, harka, yellu, hutchyellu and haralu.

Rice is largely cultivated under all the tanks, both the kartika and vaisakha crops being obtained under some. The different descriptions are Dod-baila-nellu Chik-baila-nellu and a little Sannakki.

Sugar-cane is grown to a moderate extent under some of the larger tanks without supplementary well irrigation. Under the small ones, with the assistance of wells, both Kemp rastali and Katage kabbu are much cultivated in some parts, particularly in the Tyakal and Masti Hoblis.

Gardens.—Under the Masti, Lakkur and a few other tanks, there are some good gardens of cocoanut, arecanut, plantain, pan, &c. The following crops are commonly raised both under tanks and independently of them in many villages, *viz.*, ragi, onions, garlic, potatoes, sweet potatoes, turmeric, ranga-málé, chillies, coriander, &c., in the vicinity of Malur and Lakkur especially. Sugar-cane is almost everywhere cultivated more or less, as a garden crop; apparently less in Malur than in the other hoblis. Mulberry is also grown in some places and a little tobacco everywhere.

8. *Rates.*—The rates entered in the Siddharti accounts according to statements supplied by the Amildar are as shown in the following form :—

Hobli.	Dry per kolaga of 3,200 square yards.						Wet per kolaga of 500 square yards.						Sugar-cane per kolaga of 500 square yards.			Garden per kolaga of 500 square yards.					
	A.	P.		Rs.	A.	P.	A.	P.		Rs.	A.	P.	Rs.	A.	P.	A.	P.		Rs.	A.	P.

Lakkur	4	8	to	2	11	0	1	0	to	1	2	8	1	5	0	9	4	to	2	11	0
Masti	not stated						not stated						1	5	0	8	0	to	0	11	0
Huldenhalli	4	8	to	3	8	0	4	0	to	0	10	0	1	5	0	8	0	to	0	14	0

Narsapur	7	0	to	1	8	0	3	6	to	0	14	0	1	5	0	8	0	to	1	15	3

Taking the dry kolaga to represent an acre and a half and a wet kolaga to be 10 acres (it is not quite 10 but 9·68) the old rates would be per acre as noted next :—

Hobli.	Dry rates per acre.						Wet rates per acre.						Sugar-cane rates per acre.			Garden rates per acre.					
	Rs.	A.	P.		Rs.	A. P.	Rs.	A.	P.		Rs.	A. P.	Rs.	A.	P.	Rs.	A.	P.		Rs.	A. P.

Narsapur ...	0	10	6	to	2	4 0	2	3	0	to	8	12 0	13	2	0	5	0	0	to	19	8 0

There being comparatively little garden in Malur Hobli, separate rates do not appear to have been fixed.

In the Lakkur Hobli, there are special rates for Lakkur, Kodihalli and Kodur which are from 8 annas to Rs. 1—2—8 per kolaga.

In Kasaba Masti there are special rates on pan gardens, *viz.*, Re. 1—0—0, Rs. 1—2—8, Rs. 1—15—0 and Rs. 2—11—0 per kolaga. In other villages of that Hobli, they are thus—*viz.*, in Anikarhalli 9 annas 4 pies, in Turanashi Rs. 1—7—0, and Rs. 1—2—8, Tyagandode Re. 1—0—0, Hanya Rs. 1—2—0 and Re. 1—0—0 per kolaga, the common rate being Re. 1—0—0 per kolaga or nearly Rs. 10—0—0 per acre.

9. *Forest and Kavals.*—Under this head may be reckoned the Government casuarina plantations which number six. Fresh lands are being taken up for fuel plantations but their boundaries were not sufficiently defined to admit of the new ones being brought under survey. There are no other descriptions of Government forest nor are there any Amrut Mahal kavals.

10. *Wages.*—Wages vary a little in the different hoblis. For skilled labor the daily wage is 6 annas, for ordinary coolies from 2 to 4 annas for men and from 1 to 2 for women. In kind, daily payments are made to men of from 3 to 4 seers of rice or ragi and to women of from 2 to 3 seers.

In the Malur Hobli it is not customary to pay in kind.

11. *Manufactures.*—These are of no importance. Cumblies, men's and women's cloths are made and also a few iron implements for agricultural use, but little else.

12. *Roads.*—Besides the Madras Railway which runs through the Taluk, there are four roads from Malur, *viz.*, to Kolar (with a branch road off it to Narsapur), to Hoskote, Hosur and Masti. And the Bangalore-Madras road crosses the north of the Taluk passing through Kasaba Narsapur. The Amildar says that a road is much needed which would connect Masti and Huldenhalli with the Tyakal Railway Station, and also one from Tyakal to Kolar. The latter has been roughly traced by the Amildar as far as his own Taluk goes, but has not been continued from the Kolar side. The Taluk is otherwise well found in roads. Huldenhalli is the only Hobli deficient in this respect, the town of Huldenhalli having no road communication with either the Malur or Tyakal Railway Station.

13. *Markets and Fairs.*—Weekly markets are held at Malur, Tirapati (Lakkur Hobli), Masti, Toralaki (Huldenhalli Hobli), Tyakal and Narsapur. Fairs take place annually at Malur, Lakkur, Jodi Chalegauhalli (Huldenhalli Hobli) and Hulerhalli (Tyakal Hobli).

14. *Exports and Imports.*—The exports are rice in husk and other food grains and jaggory. The imports are cocoanuts, arecanuts, salt, rice and cloths of sorts.

15. *Rain-fall.*—The following is an extract from the Register kept at Taluk Head-quarters, showing the fall for five years :—

Year.	April.	May.	June.	July.	August.	September.	October.	November.	December.	January.	February.	March.	Total.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

The average for these five years is 21 inches, 5 cents, but it is a question whether the fall has been carefully gauged. The Taluk being so close to Bangalore and perhaps even more favorably situated than Bangalore for the heavy autumn rains which come at the burst of the north-east monsoon, I cannot believe that the average fall is less than 35 inches.

16. *Remuneration and Privileges of Village Servants.*—Shanbhogs hold Inam land for service and are supposed to get 4 annas, 8 pies from each pattadar, 2 kolagas of ragi, one kolaga of rice on each khandi, 5 seers of jaggory on each day's cane crushing in their villages.

One Kolaga equal from 8 to 10 seers.

Patels hold vetana land, but receive no "miras" from raiyats.

Nirgantis cultivate a certain portion of land as Inam and receive from 2 to 4 seers of rice on the khandi, besides a bundle of straw with the grain on every 5 kolagas of rice land and one seer of jaggory when cane is crushed. Totis and Talvars get 8 seers of ragi per kolaga of dry land, in some villages 2 seers of rice per khandi, a bundle of ragi straw with the grain and a share of the jaggory when cane crushing is in progress. They also hold Inam land.

17. *Health.*—The general health of the inhabitants of this Taluk is reported to be good.

18. The hoblis most favorably situated are Malur and Tyakal through which runs the Bangalore-Madras Railway. Malur and Lakkur possess the best soils and are richest in tanks (the Lakkur Hobli especially). Tree gardens of which there are few are pretty well confined to the Lakkur and Masti Hoblis. Sugar-cane this year was most extensively cultivated in the Tyakal, Masti and Huldenhalli Hoblis, being found under most of the small tanks with supplementary well irrigations. Huldenhalli has the best grazing grounds and has a good breed of cattle.

All things considered, I should rank Malur first and place the remaining Hoblis thus—2. Lakkur, 3. Tyakal, 4. Narsapur, 5. Masti, 6. Huldenhalli.

From the Superintendent, Mysore Revenue Survey, To the Deputy Commissioner, Kolar District, No. 1, dated, Kolar Road, 1st April 1890.

I have the honor to forward for your opinion Colonel Rutherfurd's original report containing proposals for the revision of the assessment of the Malur Taluk of the Kolar District.

2. The proposed rates were fully discussed by Colonel Rutherfurd and myself before being put in present shape and I need therefore scarcely observe that they have my full approval.

3. You will observe that the maximum rates for dry, wet and garden respectively fit in pretty accurately with those adopted in adjoining Taluks already settled.

4. The general effect of the proposed settlement is to leave the total demand, after deducting amount required to pay village officers and the contribution to the irrigation fund, at about Rs. 86,000. This Taluk was at one time from a revenue point of view in a very flourishing condition as is evidenced by the collections of 1871 and previous years. Great inequality prevailed in the incidence of the old assessment and the conversion of Batayi into Nagadi added still further to this inequal incidence. Putting these considerations aside however the proposed rates are in themselves moderate and by no means too high for a Taluk so favorably situated as Malur.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

5. Colonel Rutherfurd's report and its accompaniments will, however give you full information on all needful points and I shall feel much obliged by your opinion at the earliest possible date as owing to the reasons given in the concluding para of Colonel Rutherfurd's report, the present papers are overdue.

6. I must observe that Colonel Rutherfurd has included in the general classwar statement two villages (Nos. 70 and 71 of Group 1) transferred to the Hoskote Taluk, instead of preparing a separate classwar statement for the two villages in question. You will understand that any apparent discrepancy between the figures in the body of the report and the classwar statement is due to the above cause.

From the Deputy Commissioner, Kolar District, To the Superintendent, Mysore Revenue Survey, No. 49—34, dated 8th April 1890.

I have the honor to acknowledge the receipt of your letter No. 1 of the 1st instant forwarding for my opinion Colonel Rutherfurd's report containing proposals for the revision of the assessment of the Malur Taluk.

2. In returning the original papers received with the above, I beg to state that I have carefully looked over them and think that the proposed rates of assessment are on the whole, moderate, and compare fairly well with those already introduced into the neighbouring Taluks with slight variations which appear justifiable under the special circumstances of the Taluk now to be settled.

3. The question of opening a road from Masti to Tyakal with a branch to Huldenhalli referred to in para 9 of Colonel Rutherfurd's report has already received my attention and a beginning has been made in this direction and I hope that the road will be finished in due course.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 1st May 1890.

No. 995-1004—Cir. 17, DATED 1ST MAY 1890.

ORDER THEREON.—With the above read letter, the Superintendent of Revenue Survey and Settlement in Mysore submits his proposals for the revision of the assessment in the Malur Taluk of the Kolar District.

2. The Malur Taluk is situated between the Kolar, Hoskote and Bowringpet Taluks, all of which have been settled and the Hossur Taluk of the Madras Presidency. It contains, besides 6 plantations, 426 villages, of which 317 are Sarkar and 109 are alienated. Of the former 8 are what were added on to Malur Taluk on its reconstitution from the Hoskote Taluk into which the settlement has already been introduced. Two other unsettled villages recently added on to Hoskote Taluk being included in the present proposals, the tabular statement accompanying the Survey Superintendent's report contains particulars of 311 Sarkar villages. The report itself however dwells only on the 309 unsettled villages now comprised in the Malur Taluk. The number of alienated villages however is not clearly accounted for. The total of the different kinds of this class given at para 3 of Mr. Barker's letter is 109. But that of the figures at para 3 of Colonel Rutherfurd's letter as well as the number accounted for in the list of Inam villages attached to the report is 107 only. Probably 2 villages now in Hoskote Taluk have, for that reason, been excluded from Colonel Rutherfurd's report, though they have been taken into account by Mr. Barker, because they come for the first time under the operations of the Survey Department.

3. The taluk is one of the most favored and prosperous of the Kolar District. It has a salubrious climate and a good rain-fall being under the influence of both monsoons. The soil is generally good, and yields a good harvest of the usual staple crops; sugar-cane is extensively cultivated in 2 Hoblis, and a double crop of rice is grown under some of the tanks of which there are no less than 385, 55 of these being fairly large ones. The taluk is traversed by the Madras Railway, which has two stations in it and it has 6 weekly and 4 annual fairs and is in close proximity to the Gold Mines. It is also fairly supplied with roads, though there is a scope for improvement in this respect in the south-east part of the Taluk. From the statistics collected in the course of classing work, the population shows a fair ratio of increase during the last decade. Its density at present is about 183 per square mile of general area and 595 of cultivated area. Herds of cattle are reared in parts, so that the stock in the whole taluk is about 2 per head of population. Ploughs (15 per 100 of population) and carts (3·75 per 100 of population) are comparatively few, but this may be due to the statistics collected relating to Sarkar villages only, whereas it is evident from the large number of alienated villages in the Taluk that a large number of raiyats residing in them and holding Sarkar land in the neighbourhood, have been left out of the account.

4. For purposes of the settlement of dry lands, the Survey Superintendent classifies the villages under three groups, principally with reference to facility of communication. The maximum rates proposed are shown below side by side, with those adopted for the neighbouring taluks of Hoskote, Kolar and Bowringpet.

	Malur.	Hoskote.	Kolar.	Bowringpet.
	Rs. As.	Rs. As.	Rs. As.	Rs. As

Garden—				
Tank	12 0	12 0	12 0	10 0

No fourth group as in Bowringpet has been found necessary for the purposes of assessment because, as Colonel Grant observes, the Malur Taluk is on the whole more uniform in the condition of its villages than Bowringpet and contains fewer scattered and out-lying bits. But unlike Hoskote and Kolar, a third group has been called for, consisting of 79 villages forming part of Tyakal Hobli and the greater portion of Huldenhalli Hobli, which are practically without communications of any kind and are stated to be without even the advantage of being within easy reach of the Tyakal station by cross country cart-tracks.

5. The two villages which now belong to Hoskote Taluk are classed in the 1st group, and the 309 villages to which the proposed settlement applies in Malur Taluk are distributed as follows among the three proposed groups :—

1st Group	..	69
2nd do	..	161
3rd do	..	79
		309

Government would have preferred to see some of the villages near Tyakal station and close along the Railway line which are now included in group II included in group I, in anticipation of the early completion of road communications now on hand. But the proposed groups are allowed to stand as the practical result will be small, compared with the inconvenience of revising the Survey Superintendent's proposals.

6. The proposed maximum rates give the following results on occupied lands. The corresponding figures for the adjoining taluks are shown opposite in each case:—

	Malur.			Hoskote.			Kolar.			Bowringpet.		
	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.
Dry Crop	1	8	7	1	12	3	1	9	3	1	6	2
Rice	5	13	11	5	14	11	5	2	1	5	12	7
Garden	5	6	3	5	12	7	4	15	0	5	8	13

7. On the basis of the area ascertained by the Survey, the average rates of present and proposed assessment compare as follows, disregarding the distinction between Rice and Garden, which latter under the Survey is different from the Garden lands under the old system :—

	Malur Taluk.					
	Present.			Proposed.		
	Rs.	As.	P.	Rs.	As.	P.
Dry Crop	**1**	**3**	**9**	**1**	**8**	**7**
Rice and Garden	**4**	**2**	**1**	**5**	**11**	**6**

8. The increase under Survey is not more than may reasonably be expected from the favorable circumstances of the taluks; the rates proposed are essentially

fair and moderate, and the Government of His Highness the Maharaja have no hesitation in sanctioning their adoption.

9. The increase of Land Revenue accruing by the adoption of the proposed rates amounts to Rs 19,395 per annum on the present occupied area. By setting off against this a sum of Rs. 9,500, estimated Irrigation fund and remuneration of village servants, the increase in the revenue proposed to be taken from the taluk is about Rs. 10,000.

10. The Government of His Highness the Maharaja sanction the introduction of the settlement as proposed, with the usual guarantee for 30 years.

11. The Deputy Commissioner will report upon the expediency of effecting a transfer of villages between Hoskote and Malur Taluks, the necessity for which is suggested in para 3 of Mr. Barker's report.

12. The remarks contained in para 5 of Mr. Barker's report suggesting the improvement of certain tanks will be communicated to the Public Works Department for needful action The early completion of the road near Tyakal, begun but not completed, and the early commencement of a road to open out the south-eastern portion of the taluk as suggested in para 9 of Colonel Rutherfurd's report are important matters which require the early attention of the Chief Engineer, in consultation with the Deputy Commissioner.

PART I:

FINANCIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 25th May 1890.

READ THE FOLLOWING PAPER :—

Letter No. 709—63, dated 26th June 1889, from the Anche Bakshi in Mysore

No. 1432-3—160, DATED 25TH MAY 1890.

ORDER THEREON.—Under the terms of the orders contained in para 12 of Government Proceedings No. 21—30, dated 4th April 1889, in the case of Anche officials to be retired in consequence of the transfer of the Anche to the Imperial Postal Department, service as Anche Mutsaddis on pay of Rs. 10 and above will be reckoned as "Superior service." The average emoluments for the purpose of pension will, in the case of such Anche Mutsaddis, be the average calculated upon the last five years of service.

2. In the letter above read, the Anche Bakshi brings to notice the case of Anche officials on pay of less than Rs. 10 and recommends that such service be also regarded as "superior" with the additional concession of calculating the pension on the average emoluments of the last five years of service. The rules applicable to the cases in question are those in Section 51 (*b*) 1 and Section 79 (*b*) 1 of the Civil Pension Code, 4th Edition, copied below :—

"51 (*b*)1.—In consideration of the low scale of pay prevailing in Mysore during the Native Administration, the Chief Commissioner may allow service, even on pay not exceeding ten rupees in offices which must have been filled by educated men, to reckon as superior service (see Section 79, Rule 1). But this concession only applies to officers who were in the service of the Mysore State before 1862, and served continuously since that year."

"79 (*b*) 1.—In the case of an officer claiming the benefit of Section 51, Rule 1, "Average Emoluments" means the average calculated for the whole of the service necessary to qualify for the pension granted, excluding any excess service rendered before the commencement of the necessary period; and a gratuity is to be calculated on "Average Emoluments" (as defined in this Section) instead of on "Emoluments."

3. In consideration, however, of the fact that the scale of salaries in the Anche Department has always been low, the Government are pleased to apply the foregoing rules to all Anche officials, omitting from Section 51 (*b*) 1, the words 'But this concession only applies to officers who were in the service of the Mysore State before 1862 and served continuously since that year."

4. The further concession recommended by the Anche Bakshi for calculation of pension on 5 years' average emoluments in such cases cannot be granted, but every Anche official shall be given the option of electing a pension or gratuity under the ordinary rules or under Sections 51 (*b*) 1 and 79 (*b*)1 as above modified.

T. ANANDA RAO,
Chief Secretary.

To—The Anche Bakshi in Mysore, The Comptroller of Mysore, } With a request that all the pension applications pending in their offices may be submitted for sanction without further delay.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 6th May 1890.

READ:—

Letters from the Deputy Commissioner, Mysore District, dated 16th March and 7th April 1890, Nos. 1065 and 10 respectively, submitting the Budget Estimates of the Municipality of Mysore for the year 1890—91.

No. 1837-48—CIR. 31, DATED 6TH MAY 1890.

ORDER THEREON.—The receipts for 1890—91 are estimated at Rs. 1,09,889 against Rs. 94,009, the actuals of 1888—89, as shown below :—

2. *Octroi.*—The estimate under this head is fair and is passed. The Municipal Board propose to abolish the duty on butter and to impose duty at 3 per cent *ad valorem* on piece goods imported from foreign countries. If the measure is sanctioned, the Board consider that the total estimate under Octroi may be raised by **Rs. 14,000.** This question of imposing duty on foreign piece goods in all the Municipalities is now under reference and it will be disposed of separately on the receipt of the replies called for from all the Deputy Commissioners. Meanwhile, the present estimate will stand.

3. *II. Tax on Houses and VII. Mohatarfa.*—The estimate under these two heads is **Rs.** 26,000 against **Rs.** 21,702, the actuals of 1888—89. The increase estimated entered under these items is stated to be due to the anticipated collections of the arrears of previous years, amounting to Rs. 10,000. The estimate is passed.

4. *III. (a) Liquor License Fees.*—The increase of Rs. 4,600 under this head is due to the introduction of the higher rates sanctioned in Government Proceedings dated 21st December 1888, No. 6107-10—286. The estimate is passed, but it should be explained why the higher rates were not introduced during 1889—90.

5. *III. (b) Other Licenses.*—The increase of Rs. 838 under this head is also due to the introduction of certain new license fees sanctioned in the Government Notification No. 165, dated 5th June 1889. This is also sanctioned.

6. *IV. Carriage Tax and V. Tax on Animals.*—The increased estimate under these heads is based on the probable collections of 1889—90. The estimate is passed.

7. *X. Miscellaneous.*—The increase of Rs. 6,334 under this head over the actuals of 1888—89 is the result of a gross increase of Rs. 8,249 and a gross decrease of Rs. 1,915 in the items shown in the margin. The provision of Rs. 3,800 under Loans is the balance of the loan sanctioned by Government, proposed to be taken during 1890—91. This is passed. The provision of Rs. 5,000 under Contribution is the sum which the Deputy Commissioner proposes to demand from the Public Works Department for the maintenance of Provincial roads running through the City. The amount paid by the Public Works Department in 1889—90 was only 1,437, but the Deputy Commissioner states that this sum is altogether insufficient and that, if the Public Works Department is not willing to pay at least Rs. 5,000 for 1890–91, it may be asked to undertake the maintenance of the roads under its own supervision. The provision will be retained pending the remarks of the Chief Engineer on the subject.

(*l*) Notice and warrant fees	6		
(*m*) Contribution ..	4,308		
Total	8,249	Total.....	1,915

8. The other items do not call for remark.

9. The estimate of receipts sanctioned thus amounts to Rs. 1,09,889. Adding to this the estimated opening balance on 1st April 1890 of Rs. 14,890, the sum available for expenditure during 1890—91 is Rs. 1,24,779. But the proposed expenditure amounts to Rs. 1,37,569 which not only leaves no working balance at the end of 1890—91 but also exceeds the assets by Rs. 12,790. The charges must therefore be reduced.

10. *Expenditure.*—The details of expenditure are as shown below :—

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 6th May 1890.

11. *II. Head Office.*—The increase of Rs. 4,523 over the actuals of 1888—89 is due to the provision of Rs. 3,000 for the President's allowance, to a provision of Rs. 360 for the increased estimates sanctioned in 1889—90, to the provision on account of 3 peons newly proposed and of the allowance to the Vice-President for the whole year and to the increased provision under contingencies. The estimate is passed.

12. *III. Collections.*—The decrease under (*b*) House tax, which is due to the abolition of the post of Assessor on Rs. 30 per mensem is only nominal, as in lieu thereof the entertainment of a Store keeper and of a Munshi on Rs. 15 each per mensem has been sanctioned and their pay included under II. Head office.

13. *IV. (a) Conservancy Establishment.*—The cost of the sanctioned scale of establishment is Rs. 11,352, whereas the cost of the establishment as now existing is only Rs. 10,920 The Deputy Commissioner proposes to revise the establishment and provides Rs. 12,852 as shown below :—

Details.	As sanctioned.		As now existing.		As now proposed.	
	No.	Cost.	No.	Cost.	No.	Cost.
Sanitary Inspectors	6	1,152	6	1,128	7	1,848

Peons	11	792	11	804	11	792
Totis	15	1,260	10	804	15	1,260
Sweepers	150	8,064	154	8,100	170	8,868
Total... ..	183	11,352	182	10,920	204	12,852

The chief alteration proposed is the employment of a Sanitary Inspector on a salary of Rs. 50+10 and of 16 sweepers at Rs. 4 each. The increase proposed is on the whole not large and is sanctioned

14. *IV (b) Conservancy—Other charges* —A provision of Rs. 5,650 is made in the Budget of 1890—91 against Rs. 402, the actuals of 1888—89, and Rs. 5,680, the estimate sanctioned for 1889—90. The details of the provision are as given below :—

		Rs.
(1)	30 carts at Rs. 15 per mensem	5,400
(2)	Cost of clothing	150
(3)	Wheel barrows	100
	Total...	5,650

The estimate is passed. The figure given under actuals is apparently incorrect.

15. Under V. Police, the last year's provision of Rs. 24,764 has been repeated for the current year. The Municipal Board make no provision for the repayment of Rs. 2,500 expended from Provincial Funds, for the clothing of the Town Police on the occasion of the visit of Prince Albert Victor, but on the contrary request that the Municipality may be relieved of the burden of maintaining the Town Police, as the Municipal Funds are insufficient for the legitimate conservancy purposes. The subject of relieving the Municipality of the Police charges is now under consideration of Government. Pending final orders on the subject, the provision made will be retained.

16. *Registration of Births and Deaths.*—At present, there is no separate establishment for the registration of births and deaths, but the Municipal Board propose the entertainment of an establishment costing Rs. 624 a year. The Deputy Commissioner, however, considers that the entertainment of the new establishment may be postponed till 1891, when the census will be taken afresh. The Deputy Commissioner's proposal is approved and the provision struck off the Budget.

17. *VII. Lighting.*—Under this head, a provision of Rs. 8,000 is made against Rs. 3,859, the actuals of 1888—89, and Rs. 4,500, the estimate for 1889—90. There are at present only 428 lamps, but it is proposed to increase their number by 125. The Government are unable to sanction the increase owing to the insufficiency of funds and the last year's estimate will therefore be repeated.

18. Under VIII. Public Works, a sum of Rs. 57,147 is provided against Rs. 35,915, the actuals of 1888—89, and Rs. 30,000, the estimate for 1889—90 Considering the assets available, the provision made is too large.

The following items will therefore be struck out :—

		Rs.
(*b*)	Roads, original	1,500
(*d*)	Drains do	10,020
(*g*)	Buildings, original	2,500
(*k*)	Other works, original	2,500
(*o*)	Reserve reduced from Rs. 8,000 to 4,000	4,000
	Total Reduction ..	20,520

The employment of an Overseer on Rs. 80+15 and of a peon on Rs. 5 per mensem and the grant of horse allowance of Rs. 10 each to the 3 Sub-Overseers now employed costing in all Rs. 1,560 more than the sanctioned estimate under "(*a*) Supervision establishment" is also proposed. The horse allowance proposed to the Sub-Overseers will be sanctioned ; but the employment of the Overseer and his peon may be postponed till the Municipality is able to spend more money than that now sanctioned on Public Works.

19. *IX. Charitable Grants.*—The provision of Rs. 5,324 under this head consists of the marginally noted items. The estimates under (*b*) Hospitals, which should have been shown under (*d*) Maternity, includes the full pay of the Assistant Surgeon, whereas only $\frac{2}{3}$ of it is debitable to the Municipal Funds, the remaining $\frac{1}{3}$ being debitable to District Funds. The provision will therefore be reduced by Rs. 600. The remaining increase under the same head over the estimate for 1889—90 is due to the provision of Rs. 100 for the clothing of the patients, and it will also be reduced by $\frac{1}{3}$rd which is debitable to District Funds. The new provision of Rs. 600 made under Langarkhana will also be struck out for want of funds. The figure shown under actuals against (*b*) Hospitals is apparently wrong.

		Actuals. 1888—89.	Estimates. 1889—90.	1890—91.
(*a*)	Dispensaries	150	156	156
(*b*)	Hospitals	536	3,580	4,280
(*c*)	Vaccination	288	288	288
(*d*)	Maternity	...	...	...
(*e*)	Langarkhana	...	...	600
	Total...	974	4,024	5,324

20. Under X. Education, an increased provision of Rs. 600 is made in the Budget for 1890—91 against Rs. 458, the estimate for 1889—90, and Rs. 346, the actuals of 1888—89. No explanation is furnished for this increase. The omission should be supplied. Meanwhile the estimate will be allowed to stand.

21. *XI. Miscellaneous.*—The provision under the head is Rs. 8,412 against Rs. 5,353, the actuals of 1888—89, and Rs. 5,529, the estimate for 1889—90. The increase is chiefly due to the provision of Rs. 3,000 for completing the pavilion and laying out roads in the People's Park. The cost of the establishment of the People's Park is also proposed to be increased by Rs. 420. The latter item will be retained but the former provision of Rs. 3,000 will be struck out. Pavilion to the People's Park is a luxury, which can well wait till more funds are available.

22. With these remarks and subject to the explanations called for, the Budget Estimates of the Mysore City Municipality are sanctioned as detailed in the accompanying appendices, of which the following is the abstract :—

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 9th May 1890.

READ:—

Letter from the President, Bangalore City Municipal Commission, dated 26th March 1890, No. 747, submitting the Budget Estimates of the Municipality of the City of Bangalore for the year 1890—91.

No. 1824-35—Cir. 30, DATED 9TH MAY 1890.

ORDER THEREON.—The receipts for 1890—91 are estimated at Rs. 1,02,353 against Rs. 97,232 the actuals of 1888—89 and Rs. 1,02,365 the sanctioned estimate for 1890—91 as shown below:—

Budget Head.	Details.	Actuals of 1888—89	Estimate for— 1889—90	1890—91

	Total Income including Balance... ...	1,22,653	1,16,090	1,23,851

(2) *Octroi.*—The estimate under this head is fair and is sanctioned.

(3) *II. Tax on Houses.*—The slight increase in the estimate over the actuals of 1888—89 is stated to be due to the increase in the Jamabandi settlement for 1889—90. The estimate is passed.

(4) *III. License Receipts.*—The increase of Rs. 905 over the actuals of 1888—89 under (*a*) Liquor shops is stated to be due to the opening of a new shop and to the expected increase in the sale of arrack during 1890—91. The estimate is passed.

(5) *VII. Mohatarfa.*—As in the case of the house tax, the increase of Rs. 2,870 over the actuals is ascribed to the increase in the Jamabandi settlement for 1889—90. The estimate is approved.

(6) *VIII. Rents.*—The increase of Rs. 1,732 over the actuals of 1888—89 is under the following items :—

		Increase.
(*c*)	Markets	309
(*d*)	Shops	985
(*e*)	Lands	438

The estimate is stated to have been based on the rents now actually realized and it is sanctioned.

(7) *IX. Fines.*—The decrease under the head is small and calls for no remark.

(8) *X. Miscellaneous.*—The decrease under this head compared with the actuals of 1888—89 is the result of a gross decrease of Rs. 2,927 and a gross increase of Rs. 1,248 in the items shown in the margin. The decrease in (*a*) is stated to be due to the small number of building sites remaining to be disposed of, that under (*b*) refunds to the improbability of large recoveries in 1890—91 and that under (*g*) to the non-existence of large arrears. The decrease under "Contributions" has not been explained. The omission should be supplied. Meanwhile the estimate will stand. The Deputy Commissioner should state whether the provision of Rs. 3,600 under "Suburban Roads" entered under Contributions includes the maintenance allowance of District Fund roads transferred to the District Headquarter Municipalities with effect from 1st April 1890 under Public Works Department Circular dated 20th December 1889, No. 97—98. The increase under (*f*) School fees is mainly due to the inclusion of fees from Kannada School transferred to the Municipality under Proceedings dated 31st July 1889, No. 1971, Educational Department; that under (*i*) Sale of grass is due to the sale of grazing lands in the Fort recently transferred to the Municipality and that in (*n*) Other items is the result of small increases in a number of items.

(9) *XI. Grant-in-aid.*—The estimate of Rs. 2,760 under this head, the details of which are given in the margin, is nearly the same as the actuals of 1888—89, but the estimate does not include the contribution of Rs. 360 promised by Sivaganga Matt. The omission should be explained.

		Rs.
1.	Government contribution on account of Sanskrit College ...	1,200
2.	Sringeri Matt's do ...	1,200
3.	Parakala do do ...	360

(10) The estimate of receipts sanctioned thus amounts to Rs. 1,02,353. Adding to this, the opening balance of Rs. 21,498, the sum available for expenditure during 1890—91 is Rs. 1,23,851, of which Rs. 1,08,133 are proposed to be expended, leaving a balance of Rs. 15,718, which is less than twenty-five per cent of the receipts by Rs. 9,870.

(11) *Expenditure.*—The details of expenditure are as shown below:—

	Grand Total Rupees.....	1,22,653	1,16,090	1,23,851	

(12) *II. Head Office.*—The increase of Rs. 521 over the actuals of 1888—89 is chiefly due to the increase of pay sanctioned to the Collector and *Ex-officio* Manager and to the Clerk and Record-keeper during 1889—90. The estimate which is the same as that sanctioned for 1889—90 is passed.

(13) *III. Collection.*—The provision under the head is according to the sanctioned scale and is approved.

(14) *IV. Conservancy and V. Registration of Births and Deaths.*—The increase under these heads is small and calls for no remark.

(15) *VII. Lighting.*—The provision under this head exceeds the actuals of 1888—89 by Rs. 3,302 and the sanctioned estimate of 1889—90 by Rs. 780. The increase over the actuals is stated to be due to the increased demand for lights in the City and also to the charges required to light the Fort recently transferred to the Municipality. The estimate is passed.

(16) *VIII. Public Works.*—The provision under the head consists of—

	Rs.
(1.) Supervision Establishment	1,952
(2.) Works including Rs. 924 on account of Kalihat Establishment	40,100
Total.....	42,052

The estimate is larger than the actual expenditure during 1888—89 by Rs. 11,450. The provision must be reduced, as the closing balance is less than one-fourth of the receipts. The Government accordingly reduce the estimate as shown below. The Deputy Commissioner will submit details for the amounts sanctioned.

	Details.	Amount provided.	Amount sanctioned.	Reduction made.
(*b*)	Roads, original ...	5,000	4,000	1,000
(*d*)	Drains, original ...	5,000	4,000	1,000

(*o*)	Reserve	2,000	1,000	1,000
	Total Rs.....	19,700	14,500	5,200

(17) *IX. Charitable Grants.*—The increase of Rs. 489 over the actuals of 1888—89 is the result of a gross increase of Rs. 982 and of a gross decrease of Rs. 493 in the items noted in the margin. The increase under Dispensaries is due to the provision made on account of the Itinerant Medical officer and a Compounder recently sanctioned, but as the provision does not include the charge allowance recently sanctioned to the Hospital Assistant attached to the Branch Dispensary, the estimate will be raised by Rs. 180. The other variations are small and do not call for remark.

(18) *X. Education.*—The details of the charges provided under this head are as noted in the margin. The decrease compared with the sanctioned estimate for 1889—90 under Item (1) is not explained. The Municipality proposes to pay during the year Rs. 3,360, of which Rs. 2,760 are expected to be realized from sources mentioned in para 9 *supra*. The provision will be allowed to stand.

6. Grant to Oriental and Mixed Library		...	...	240
Total X, Education..... ...		17,894	..	10,747

(19) *Item 2.—Town Municipal School.*—The increase under this head compared with the sanctioned estimate for 1889—90 is due to the proposed revision in the number and salaries of Teachers and to the provision of Rs. 250 newly made on account of the rent of a portion of the School and the purchase of prize books. The increases provided are sanctioned and the estimate approved.

(20) *Item 3.—Kannada Boys' School.*—A provision of Rs. 1,600 is newly entered on this account. This institution, which was hitherto maintained from Provincial Funds, was transferred to the Municipality under Proceedings dated 31st July 1889, No. 1971, Educational Department. The cost of the establishment when the transfer took place was only Rs. 1,236 and it is not explained why a provision of Rs. 1,600 is made. The omission should be explained. Meanwhile the estimate will stand.

(21) *Item 4.—Government Girls' School.*—The Girls' School is maintained from the Provincial Funds and the Municipality has simply its management. The grant made by Government on account of the purchase of books and prize articles is only Rs. 400 and it is not stated why Rs. 580 are provided. The estimate will be reduced to Rs. 400. If the latter sum is not sufficient, application should be made for an additional grant from Provincial Revenues.

(22) *Item 5.—Grants in-aid to Schools.*—The large decrease under the head is due to the Municipality having been relieved of the charges on account of grants-in-aid to schools in the Bangalore City to the extent of Rs. 9,552 (*vide* Proceedings dated 31st July 1889, No. 1971, Education Department, quoted above). The estimate under this head is passed.

(23) *Item 6.—Oriental and Mixed Library.*—A sum of Rs. 240 has been newly entered on account of the Library. The charge having already been sanctioned in Proceedings dated 13th November 1889, No. 6464-5—713, the provision will be retained.

(24) *XI.—Miscellaneous.*—The increase under this head is chiefly in (*f*) Pension charges, for which Rs. 600 are as usual provided, though the actuals of 1888—89 were only Rs. 91. The estimate is passed.

(25) With these remarks and subject to the explanations called for, the Budget Estimates of the Bangalore City Municipality are sanctioned as detailed in the accompanying appendices, of which the following is the abstract:—

No. 2622-33—CIR. 41, DATED 13TH MAY 1890.

ORDER THEREON.—With the above, the Deputy Commissioner submits the Budget Estimates of the several Municipalities of the Kadur District for 1890—91.

Chikmagalur.

2. The receipts of the Municipality are estimated at Rs. 14,430 against Rs. 13,337, the actuals of 1888—89.

Receipts.	Actuals of 1888—89.	Estimate for 1889—90.	Estimate for 1890—91.
I. Octroi ...	7,471	6,550	7,665
II. Tax on houses ...	2,215	3,000	3,000
VII. Mohatarfa ...	1,489	2,145	1,600
VIII. Rents... ...	271	268	240
IX. Fines	13	5	5
X. Miscellaneous ...	1,878	2,082	1,920
XI. Payments for services rendered by Municipality..	...	...	...
Total.....	13,337	14,050	14,430

3. *I. Octroi.*—The estimate for 1890—91 includes two new items of Rs. 350 and Rs. 5 under Firewood and Charcoal respectively, which represent the payments made to the Municipality for the trouble of collecting the seigniorage on these articles under Government Proceedings, dated 18th December 1889, No. 7243-5—105. These items must be shown not under Octroi but under "XI. Payments for services rendered by Municipalities." The estimate will accordingly be reduced from Rs. 7,665 to Rs. 7,310, the difference being shown under XI.

4. The increase under II. Tax on houses compared with the actuals of 1888—89 is stated to be due partly to the expected collections of the arrears of previous years and partly to the expected increase in the tax on houses now under construction in all parts of the town. The estimate is approved.

5. The increase under VII. Mohatarfa is chiefly in (*a*) Shop tax due to the expected increase in the number of shops. The estimate is passed.

6. The actuals of 1888—89 under VIII. Rents included the sale proceeds of graft mango plants. No similar plants are for sale in 1890—91. Hence the decrease in the estimate which is passed.

7. The small increase in X. Miscellaneous compared with the actuals is the result of a gross increase of Rs. 389 and a gross decrease of Rs. 317 in the items noted in the margin. The new estimate of Rs. 350 under (*m*) Contributions is stated to consist of the mileage allotment on account of the maintenance of the Provincial roads as well as of the District Fund roads recently transferred to the District Head-quarter Municipalities under Public Works Department Circular dated 20th December 1889, No. 97—98. The variations under other items are small and call for no remark.

Total	389	(*n*) Other items.	47
		Total.....	317

8. Including the opening balance of Rs. 7,570, the sum available for expenditu during 1890—91 is Rs. 22,000, of whi Rs. 18,221 are proposed to be expende leaving a balance of Rs. 3,779 at the e of the year.

9. *II. Head Office.*—The sanction cost of the establishment is Rs. 144, which Rs. 26 are added on account furniture and printed forms. The estima is sanctioned.

10. *III. Collection.*—The increase over the sanctioned estimate for 1889—9 under III. Collection is due to the provisio made for the * increases to the Octroi esta blishment and for the pay of the additiona Kolkar sanctioned in Proceedings date 18th December 1889, No. 7243-5—10 for the collection of seigniorage on fire wood and charcoal. The estimate i passed.

11. The provision under IV. Conservancy exceeds the cost of the sanctione establishment by * Rs. 184, which is in tended to meet the cost of tools and th pay of a latrine sweeper formerly attache to the Barr Lines but since transferred t the Municipality. The estimate is sanc tioned.

	Rs.
Sanctioned Establishment ...	3,324
1. Purchase and repair of tools ...	100
2. Latrine sweeper ...	84
	3,508

12. *Police.*—The present cost of the establishment is Rs. 1,752, to which a addition of establishment costing Rs. 360 per annum is proposed. The provision fo clothing and contingencies is also proposed to be raised from Rs. 248 to Rs. 292 The subject of increasing the establishment is under consideration of Government an orders will be issued hereafter. Meanwhile the estimate will be allowed to stand.

13. *VII. Lighting.*—The estimate for 1889—90 provided Rs. 218 for the purchase of new lamp-posts, but for 1890—91 only one lamp-post costing Rs. 6 is proposed to be purchased. The number of lamps to be lighted in 1890—91 is 70 while the same in 1889—90 was 65. Hence the difference between the estimates o 1889—90 and 1890—91. The estimate is passed.

14. The provision under VIII. Public Works consists of—

	Rs.
1 (*a*) Supervision establishment	300
2 (*b*) to (*o*) Works	7,265
Total.....7,565	

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 18th May 1890.

The sum of Rs. 300 entered under (*a*) Establishment is on account of the pay of Road Overseer sanctioned in Proceedings dated 7th October 1889, No. 5533-34-191, and is passed. The details of provision for works are as noted in the margin. The sum of Rs. 25 entered under (*n*) Educational Repairs will be struck out as it is no longer a charge upon Municipal Funds but has to be met from Provincial funds (Education). The provision under (*f*) Water-supply, original, will be raised by Rs. 200 with reference to the Government order on Deputy Commissioner's letter dated 10th March 1890, No. 1331. The provision as now sanctioned for works amounts to Rs. 7,440.

15. Under IX. Charitable Grants, the usual cost is Rs. 680. To this is added the increase of pay (Rs. 60) sanctioned in Proceedings dated 13th October 1889, No. 5529-31—189, to the Nurse employed in the town. The estimate is passed.

16. The decrease under XI. Miscellaneous compared with the actuals of 1888—89 is mainly due to the provision of only Rs. 100 under "Fairs and Festivals," while the actuals of 1888—89 amounted to Rs. 400. The cause of the large expenditure in 1888—89 is not explained. The estmate is however the same as that sanctioned for 1889—90 and is passed. A provision of Rs. 144 is added for the employment of a skilled gardener on Rs. 12 per mensem. The estimate will not be disturbed, but the Deputy Commissioner should explain the necessity for the employment of an additional gardener. There are already 3 gardeners costing Rs. 228 per annum, while the revenue estimated from the sale proceeds of the garden produce is only Rs. 100. The proposed increase of pay from Rs. 7 to 9 to the Cattle Pound Mutsaddi and of Rs. 4 to 5 to the Pound Peon is sanctioned.

Tarikere.

17. The income of this Municipality is estimated at Rs. 4,875 against Rs. 4,922, the actuals of 1888—89.

		Actuals of 1888—89.	Estimate for 1890—91.
I.	Octroi	1,514	1,600

VII.	Mohatarfa	960	965
X.	Miscellaneous	1,660	1,510
	Total.....	4,922	4,875

18. As in the case of Chikmagalur, the estimated credits to the Municipality on account of the collection of seigniorage on firewood amounting to Rs. 150 will be transferred to "XI. Payments for services rendered" and the estimate under Octroi reduced to Rs. 1,450.

19. The other items do not call for remark.

20. Including the opening balance of Rs. 2,625, the sum available for expenditure during 1890—91 is Rs. 7,500, of which Rs. 6,280 are proposed to be expended leaving a balance of Rs. 1,220 at the end of the year.

Total.....	3,623	4,210	6,280

21. The increase under IV. Conservancy over the sanctioned estimate for 1889—90 is due to the new provision of Rs. 20 made for the purchase of conservancy tools. The estimate is approved.

22. *VII. Lighting.*—The small increase over the sanctioned estimate for 1889—90 is on account of the purchase and repair of lamp-posts. The estimate is sanctioned.

23. *VIII. Public Works.*—The details of the provision under this head are shown in the margin. The estimate is approved.

		Rs.

(*n*)	Contribution towards the extension of School buildings as per Education Secretary's docket dated 3rd August 1889, No. 1930 ...	834
(*o*)	Reserve	15
	Total...	2,699

24. *IX. Charitable Grants.*—The provision under this head which is according to the sanctioned scale is approved. The estimate for 1889—90 did not include the pay of the Dayi for the whole year. Hence the difference between the estimates of the years 1889—90 and 1890—91.

25. The other items do not call for remark.

26. It is observed that no mileage allotment on account of the Provincial roads lying within Municipal limits is entered on the side of receipts or for their maintenance on the side of expenditure. The omission should be explained.

Birur.

27. The estimated income of this Municipality for 1890—91 is Rs. 2,715 against Rs. 9,460, the actuals of 1888—89.

		Actuals of 1888—89.	Estimate for 1890—91.
I.	Octroi ...	742	820
II.	House tax ...	635	660
VII.	Mohatarfa ...	640	665
X.	Miscellaneous ...	7,443	570
	Total...	9,460	2,715

28. *I. Octroi.*—The estimate under this head includes a sum of Rs. 50 expected to be realized from seigniorage collections on firewood. For reasons given elsewhere, the amount will be transferred to "XI. Payments for services rendered by Municipalities."

The increase in II. House tax is said to be due to the increase in the number of houses and that under VII. Mohatarfa to the increase in trade. The estimates are sanctioned.

29. The decrease under X. Miscellaneous is the result of a gross decrease of Rs. 7,114 and a gross increase of Rs. 241 in the items specified in the margin.

Increase.	Rs.	Decrease.	Rs.
(*d*) Pounds	1	(*a*) Sale of lands	6,704
(*f*) School fees	240	(*g*) Do manure	9
		(*l*) Notice and warrant fees	1
		(*n*) Other items	400
Total...	241	Total...	7,114

30. The large decrease under "(*a*) Sale of lands" is stated to be due to most of the available sites having been disposed of during 1888—89. The decrease under "(*n*) Other items" is only nominal. In 1888—89, the Municipal contribution to the school building was recredited and a similar receipt is not likely to take place in 1890—91.

31. There was no school in 1888—89 and the school fees therefore appear wholly as an increase.

32. The other items are small and call for no remark.

33. Including the opening balance of Rs. 10,235, the sum available for expenditure during 1890—91 is Rs. 13,000, of which Rs. 7,200 are proposed to be expended, leaving a balance of Rs. 5,800 at the end of the year. The closing balance is large, but it is stated to have been specially reserved for water works.

Total.....	1,682	7,842	7,200

34. Under III. Collection (*a*) Octroi, a Karkun on Rs. 5 per mensem is proposed to be entertained to assist the Sayer Manegar, who is now allowed 5 per cent commission on the total realizations. The total cost amounts to 13 per cent of the collections. This is high and the Government are not prepared to sanction the employment of the Karkun. If the Deputy Commissioner, however, considers that there should be a separate officer for the collection of octroi, the Government will have no objection to a Karkun on a salary of Rs. 7 per mensem being employed, the commission paid to the Sayer Manegar being discontinued. A provision of Rs. 84 plus Rs. 6 for contingencies will accordingly be made under this head.

35. *IV. Conservancy.*—There are at present 16 sweepers on salaries ranging from Rs. 10 to Rs. 3½ per mensem, but in future it is proposed to have only 7 sweepers, 6 at Rs. 8 and 1 at Rs. 5 per mensem. The hire of the cart is proposed to be raised from Rs. 15 to Rs. 20. This is approved and the estimate is passed.

36. *V. Police.*—The small increase under this head over the sanctioned estimate for 1889—90 is chiefly due to the provision newly made for oil proposed to be supplied to the Police for patrolling the town during nights. The estimate is approved.

37. *Lighting.*—The provision under this head, which is the same as that sanctioned for 1889—90, is passed.

38. The estimate under VIII. Public Works consists of—

	Rs.
(*a*) Supervision Establishment	120
(*b*) to (*o*) Works	4,486
Total...	4,606

The provision made under (*a*) Supervision establishment is new. The Municipality once proposed to grant the allowance to the Public Works Subordinate, but the Government refused to sanction such payment. It is not stated how the provision made is intended to be utilized. The Deputy Commissioner is requested to explain the matter. Meanwhile the estimate will be retained.

39. X. *Education.*—An English school was established on the 15th July 1889, which Mr. Patre Rudrappa undertook to maintain at his own cost for the first year, which expires on the 15th July 1890. After that date, it has to be maintained from the Municipal and Provincial Funds in the proportions of $\frac{3}{4}$ and $\frac{1}{4}$ respectively. There are at present only one teacher on a salary of Rs. 25 and a peon on Rs. 5; but as there are over 40 boys in the school, it is proposed to have an additional teacher on Rs. 10 per mensem. This is sanctioned. The total cost per mensem including contingencies at Re. 1 per mensem will be Rs. 41, of which the Municipal share is Rs. 30—12—0. This for 8½ months amounts to Rs 261, but a provision of Rs. 291 is made to enable the Municipality to pay the Assistant teacher and meet the charges under contingencies during the whole year. This is approved.

40. Under XI. Miscellaneous, the pay of Cattle Pound Peon is proposed to be raised from Rs. 4 to 5 per mensem. This is sanctioned.

Kadur.

41. The income of this Municipality is estimated at Rs. 1,280 against Rs. 2,927, the actuals of 1888—89.

		Actuals of 1888—89.	Estimate for 1890—91
I.	Octroi	679	510
II.	Tax on houses	289	310
VII.	Mohatarfa	174	201
VIII.	Rents (*b*) Gardens	..	5
X.	Miscellaneous	1,785	251
	Total...	2,927	1,280

42. The decrease under I. Octroi is stated to be chiefly due to the diminished demand for firewood and cloths owing to the completion of railway works. As remarked in para 3 *supra*, the sum of Rs. 10 expected to be derived from seigniorage collections on firewood will be transferred from Octroi to "XI. Payments for services rendered by Municipalities."

43. The increase in II. Tax on houses and VII. Mohatarfa is due to the increase in the number of houses and increase in trade. The estimates are passed.

44. The small estimate under VIII. Rents is the income expected to be derived from the new mango tope belonging to the Municipality. The estimate will stand.

45. X. *Miscellaneous.*—The decrease under this head is almost wholly in (*a*) Sale of lands. From this source, Rs. 1,510 were realized during 1888—89, while no receipts are expected in 1890—91. The estimate is passed.

46. Including the opening balance of Rs. 2,500, the sum available for expenditure during 1890—91 is Rs. 3,780, of which Rs. 2,793 are proposed to be expended during the year, leaving a balance of Rs. 987. This is larger than 30 per cent of the receipts and is stated to have been specially reserved for water-supply of the town.

47. *IV. Conservancy.*—There are at present 3 male sweepers at Rs. 4 per mensem and 5 female sweepers at Rs. 3½ each, but in future it is proposed to employ 5 male sweepers at Rs. 8 each as the present sweepers do not do their work properly. This together with the provision of Rs. 10 for tools accounts for the increase under this head. The estimate is passed.

48. *V. Police.*—Under this head, a sum of Rs. 20 is newly provided to meet the cost of oil proposed to be supplied to the Police Constables for use while patrolling the town during dark nights. As the cost of the Police is borne by the Provincial funds, the cost of oil also will have to be debited to the same head. The provision will be struck out.

49. *VII. Lighting.*—The estimate under this head, which is the same as that for 1889—90, is sanctioned. The increase in actuals is not explained. Probably new lamp-posts were purchased in 1888—89.

50. *VIII. Public Works.*—The estimate, of which details are given in the margin, is passed.

51. *XI. Miscellaneous.*—The increase, which is chiefly in (*h*) Other items, has not been explained. The omission should be supplied. The estimate will however stand.

Yedahalli.

52. The receipts of the Municipality are estimated at Rs. 590 against Rs. 575, the actuals of 1888—89.

	Actuals of 1888—89.	Estimate for 1890—91.

53. The estimated credits on account of collections of seigniorage on firewood included under Octroi will be transferred to "XI. Payments for services rendered by Municipalities" for reasons stated in para 3 *supra*.

54. The other items of receipts call for no remark.

55. Including the opening balance of Rs. 910, the sum available for expenditure during 1890—91 is Rs. 1,500, of which Rs. 1,352 are proposed to be expended, leaving a balance of Rs. 148 at the end of the year.

56. The increase under IV. Conservancy is due to the increased rate of pay from Rs. 5 to Rs. 6 proposed to each of the existing 4 sweepers, to the new provision for the hire of a cart at Rs. 15 per mensem and to the provision of Rs. 100 for clearing jungles against Rs. 15, the actuals of 1888—89. The estimate is passed.

57. The provision under VIII. Public Works, of which details are given in the margin, includes an item of Rs. 25 on account of repair of Taluk schools. This is chargeable to Provincial Funds and will accordingly be struck out.

60. *I. Octroi.*—The estimate entered under this head is the credit on account of seigniorage collections on firewood, which will be transferred to "XI. Payment for services rendered by Municipalities" for reasons given elsewhere.

61. The estimates under other heads are fair and call for no remark.

62. Including the opening balance of Rs. 365, the sum available for expenditure during 1890—91 is Rs. 1,000, of which Rs. 840 are proposed to be expended, leaving a balance of Rs. 160 at the end of the year.

63. Under II. Head Office and IV. Conservancy, the sanctioned estimates for 1889—90 have been repeated for 1890—91 with an addition of Rs. 20 under the latter for the repair and purchase of tools. The estimates are approved.

64. Under VIII. Public Works, provision is made for the marginally noted works and it is passed.

66. The decrease under Octroi is due to the abolition of duty on "chillies," "sheep and goats" and "oil". The estimate is approved.

67. The other items call for no remark.

68. Including the opening balance of Rs. 450, the sum available for expenditure during 1890—91 is Rs. 2,050, of which Rs. 1,650 are proposed to be expended leaving a balance of Rs. 400 at the end of the year.

PART I.

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 2nd May 1890.

CAMP No. 203-212, DATED CAMP OOTACAMUND, 2ND MAY 1890.

ORDER.—In order to facilitate the arrest of persons guilty of Breach of Contract punishable under Act XIII of 1859, the Government of His Highness the Maharaja resolve to adopt, as a tentative measure, a system of voluntary registration of Cooly Méstris. The Notification appended to this Order will accordingly be published and the Deputy Commissioners will be requested to instruct their Amildars to give due effect to the rules therein laid down, and satisfy themselves by occasional inspection of the prescribed Registers that the scheme is being worked in an intelligent and satisfactory manner.

2. The Planters of Mysore will, it is hoped, find it to their advantage to give advances only to Méstris who hold certificates granted under the appended Notification, and whose whereabouts are therefore presumably more readily ascertainable.

T. ANANDA RAO,

Chief Secretary.

To—The Deputy Commissioners of Districts.
The Secretary, North Planters' Association.
The Secretary, South Planters' Association.

NOTIFICATION.

The 2nd May 1890.

Any Méstri who may desire to receive an advance of money for any work which he may contract to perform or to get performed by other workmen or laborers may apply to the Amildar of the Taluk in which he usually resides, to grant him a certificate of the nature hereinafter described. The application shall be in the form appended to this Notification or to the like effect.

2. The Amildar, on receipt of such application and on production by the applicant of a fee of Rs. 3, shall institute such inquiries as may be necessary to ascertain the applicant's parentage, residence and occupation, and thereupon grant him a certificate stating the subjoined particulars as certified to by the Patel and Shanbhog of the applicant's village, or as ascertained by the Amildar:—

Name of applicant.
His father's name.
His place of residence.
His occupation.

His landed property, if any, with name of village in which situated and the numbers of the lands held by him.

His description giving his apparent age, his height, and any other particulars likely to aid in identifying him.

3. A register shall be kept in the Taluk Cutcherry of every Méstri to whom a certificate may be granted under this Notification.

4. Register and certificate as above shall be in the following form:—

No. of certificate.	Name of the person to whom it is granted.	His caste.	His father's name.	His place of residence.	His occupation.	His landed property with name of village in which situated with Nos of lands held by him.	His description, apparent age, color, any particular marks and any other particulars likely to aid in identifying him.	The Province (or if in Mysore the District) in which he proposes to receive advances	Date on which the certificate is granted.	Remarks

Signature of Amildar.

5. The certificates granted in each Taluk should be numbered consecutively.

6. In the column of remarks in the Register, any information which may come before the Amildar regarding the registered individual's conduct as Mestri, should be noted from time to time.

7. A Mestri, to whom a certificate is once granted under this Notification may, after the lapse of 3 years, apply again for a like certificate, paying a fee of Rs. 3 and surrendering his old certificate for cancellation. The new certificate granted to him should, in addition to the information above prescribed, contain a copy of entries against his name in the column of remarks in the Register, together with the number and date of the cancelled certificate.

8. In the absence of the Amildar, or under his orders, the certificates under this Notification may be granted by the Taluk Sheristadar.

"By Order,"

T. ANANDA RAO,
Chief Secretary.

ORDER.—The attention of all Heads of Departments and the Deputy Commissioners of the Districts is invited to the Government Proceedings Camp No. 1612—41, dated 1st March 1887, and they are informed that the instructions, therein contained, regarding the submission of the Comptroller's certificates with applications for leave, should be scrupulously observed except only in cases of emergency, such as serious illness, &c.

T. ANANDA RAO,
for Chief Secretary.

To—All Heads of Departments.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 27th May 1890.

No. 1513-22—Cir. 26, DATED BANGALORE, 27TH MAY 1890.

ORDER.—As good elephant tusks received at District Treasuries which ought to have been reserved for State purposes, have some times been given away, and as there is no reliable means of fixing the price at which saleable tusks may be sold, the Government direct that the following rules be observed:—

1. Tusks received at Government Treasuries should be collected once in 6 months at Mysore and Bangalore. The tusks received at other District Head Quarters should be sent to Bangalore or Mysore District Treasuries (whichever is the nearer).

2. The stock should be inspected by some *competent Officers who should decide what are fit to be reserved for the State; and those not reserved for State use at such inspection shall be sold by public auction with the sandlewood, at the annual public sales of the latter.

* In Mysore. Deputy Commissioner and Officer in charge of Palace Establishments.
In Bangalore. Deputy Commissioner and Comptroller.

T. ANANDA RAO,

Chief Secretary.

To—The Deputy Commissioners of Districts for guidance.
The Comptroller for information.
The Officer in charge of Palace Establishments.

DECISIONS OF GOVERNMENT IN REVENUE CASES.

MAY 1890.

Serial No.	Proceedings.			Subject and Order.
	No.	Date.	To whom sent.	
1	1969—97.	24th	The Deputy Commissioner of the Bangalore District.	Appeal No. 1079 of 20th August 1889. Appellant. Hotteppa, of Kadabagere, Nelamangala Taluk. This is an appeal against the order of the Deputy Commissioner of the Bangalore District, dated 6th November 1888. 2. The facts are briefly these :— In June 1877, Petitioner applied for a certain tope (Survey No. 12, 30 guntas assessed at 1 Rupee) said to have been planted by his ancestors, and complained against the sale of certain trees in it by Government. The Amildar reported that this was a charitable tope. In November 1887, the Deputy Commissioner directed that the land should be made over to Petitioner on assessment, as the trees were planted by his ancestors and as he promised to protect them. Before this order could be carried out, one Sankayya, unconnected with the Petitioner's family, complained that Petitioner was not the Hakdar, but that there were other claimants. It appeared during the Amildar's enquiry that Petitioner Hotteppa had his brother's sons living in his village, a brother's son named Mariya at Bangalore and some distant cousins at Dodballapur. The Deputy Commissioner thereupon decided, on 6th November 1888, that the land should not be given to any one as there were several claimants to the tope none of whom had more right to get it than the rest. 3. The present appeal is against this order. 4. Held that as Appellant was a descendant of the original planter of the tope and the other claimants except Mariya have not come forward to assert their right to the tope and as Mariya himself has stated at the hearing of this appeal that the Appellant may be put in possession of the

REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 4th June 1890.

READ THE FOLLOWING PAPERS.—

Letter No. 511 of the 3rd December 1889, from the Superintendent, Revenue Survey in Mysore.

2. Letter No. 739 of the 27th February 1890, from the same Officer.

No. 1916—25, DATED, BANGALORE, 4TH JUNE 1890.

ORDER THEREON.—In the above, the Superintendent, Revenue Survey, brings to notice that the marginally noted Shanbhog Service Inam lands in the Bangalore Taluk remain without being dealt with under the settlement of the final remuneration of village officers sanctioned in Government Proceedings No. 950—60 of the 16th September 1885 owing to the land emoluments of these villages having been erroneously omitted in the accounts furnished by the Taluk, though the lands are being enjoyed by the hakdars as Inam other than Service Inam and subject to no payment to Government. Colonel Grant therefore proposes to revise the settlement of the final remuneration of these Shanbhogs, and explains that the addition of Rs. 41 to the existing emoluments necessitates as a consequence the application of Rule X of the final remuneration Rules, by which the amount of remuneration already sanctioned in Proceedings Camp No. 950—960 of the 16th September 1885 is increased by Rs. 6—4—0 and makes the Service Inam lands liable to pay a Jodi of Rs. 34—12—0 to Government.

FINANCIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 14th June 1890.

READ AGAIN—

Proceedings of Government Camp No. 123—4, dated 22nd April 1890, permitting the Assistant Surgeons to draw, in addition to the pay of their grades, the fixed monthly allowance of Rs. 50 granted to them for Medical charge of a station or hospital, &c., when they are on privilege leave.

READ ALSO—

Letter No. 344, dated 30th April 1890, from the Comptroller of Mysore, soliciting orders with reference to the above Proceedings, whether a Sub-Assistant Surgeon appointed to officiate for an Assistant Surgeon on privilege leave may be granted the fixed monthly allowance referred to above in addition to the 20 per cent on the average pay of the grades of the latter class of officers.

No. 2261-2—171, DATED BANGALORE, 14TH JUNE 1890.

ORDER THEREON.—When a Sub-Assistant Surgeon is appointed to officiate for an Assistant Surgeon on privilege leave, the former officer should only draw 20 per cent of the fixed allowance of Rs. 50 in addition to the acting allowance payable to him on the average pay of the grades of Assistant Surgeon, that is to say that as regards privilege leave (both for the absentee and the officiator), the allowance of Rs. 50 should be treated as portion of substantive salary.

T. ANANDA RAO,
Chief Secretary.

The Senior Surgeon with the Mysore Government.

READ—

Docket from the Deputy Commissioner, Kolar District, dated 11th April 1890, No. 98—21, submitting the Budget Estimates of Civil Charges debitable to District Funds for the year 1890—91.

Letter dated 10th April 1890, No. 99—22, regarding the appointment of mid-wives in the several Municipalities in the District.

No. 2614-7—136, DATED 18TH JUNE 1890.

ORDER THEREON.—The Deputy Commissioner has not forwarded the estimate of receipts for 1890—91. The opening balance according to the Public Works Department Budget for 1889—90 is Rs. 29,485. The Deputy Commissioner is requested to furnish a statement showing the estimate under each item of receipts for 1890—91 and the assets upon which 76 per cent of the one anna cess has been calculated. The assests given should correspond with the figures entered under Land revenue, &c., in the Civil Budget for 1890—91.

2. Under Local Funds General also, the balance at the beginning and end of the past official year should be stated together with the estimated receipts during 1890—91.

3. The estimated Civil charges for 1890—91 amount to Rs. 8,203 against Rs. 6585 the sanctioned estimate for 1889—90 as shown below :—

Items.	Details.	Estimate for 1889—90.	Estimate for 1890—91.

Add Fees and Travelling allowance for 29 students at Rs. 25 each ...	...725
Total.....	5,285
Charge debitable to each District ...	661 nearly.

6. The increase of Rs. 108 under IV Sweepers for 3rd class Travellers' Bungalows and Musafarkhanas is due to the provision made on account of a watchman at Rs. 5 and a sweeper at Rs. 4 for the chattram at Chikballapur and Dibburhalli Travellers' Bungalow sanctioned in Proceedings No. 3030-2—108, dated 24th July, and No. 540-3— 196, dated October 1889, respectively. The estimate is passed.

7. VII *Local Fund Dispensaries.*—The increase of Rs. 250 provided under "(c) Feeding in-patients," which is due to the provision newly made for dieting in-patients

in Local Fund Dispensaries, is in accordance with the Proceedings dated 18th November 1889, No. 5640-9—137. The estimate is passed.

8. A sum of Rs. 960 is newly provided on account of allowance to Hospital Assistants in charge of Local Fund Dispensaries. This is in accordance with the Government Proceedings dated 6th December 1889, No. 7180-90—164. The estimate will therefore be passed.

9. Under "(b) Travelling allowance to Hospital Assistants" and "(g) Furniture for Dispensaries," Rs. 400 and 200 are respectively provided for 1890—91. The Deputy Commissioner is requested to state whether these amounts represent the total charges under these sub-heads or only the portions chargeable to District Funds after deducting the amount debitable to Municipalities. In the former case, the amount chargeable to District Funds should be stated. The Government observe that no provision is made under these heads in the Budgets of the Municipalities concerned. The omission should be explained and a supplemental budget forwarded if necessary.

10. In his letter dated 10th April 1890, No. 99—22, the Deputy Commissioner proposes the entertainment of 6 mid-wives on a salary of Rs. 15 each per mensem, the charge being met from Municipal and District Funds in equal proportions. The proposal is sanctioned. To meet this charge, a sum of Rs. 540 will be provided in this budget and an equal sum in the budgets of the Municipalities concerned.

11. The other items of charges call for no remark.

12. In future the actuals under charges of the year preceding that for which the budget is due should be stated and any difference between the same and the estimate explained.

13. The expenditure proposed on works to be executed by the Public Works Department during 1890—91 is not given. The Deputy Commissioner is therefore requested to submit as early as possible the District Fund Budget of Public Works for 1890—91.

14. Subject to the explanations called for, the Budget Estimates of the Kolar District for 1890—91 are sanctioned as noted below :—

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 18th June 1890.

READ THE FOLLOWING PAPERS :—

Letter No. 3480—693, dated 25th March 1890, from the Deputy Commissioner, Kolar District, submitting the Budget Estimates of the several Municipalities of the Kolar District for the year 1890—91.

2. Letter No. 99—22, dated 10th April 1890, from the Deputy Commissioner, Kolar District, regarding the employment of Midwives for the Municipalities in the District.

3. Docket No. 3163—617, dated 15th February 1890, submitting for sanction a statement of further allotment for Public Works.

No. 3936-43—CIR. 74, DATED 18TH JUNE 1890.

KOLAR.

ORDER THEREON.—The receipts of this Municipality for 1890—91 are estimated at Rs. 6,874 against Rs. 5,085 the actuals of 1888—89.

Items.	Receipts.	Actuals of 1888—89.	Estimate for 1890—91.
I	Octroi	1,699	1,100
II	Tax on houses ...	1,809	2,000
VII	Mohatarfa	1,846	3,050
VIII	Rents	38	144
X	Miscellaneous ...	293	580
	Total	5,085	6,874

2. *II Tax on Houses and VII Mohatarfa.*—The estimates under these heads are nearly the same as those sanctioned for 1889—90, with reference to the demand of the year, current, and arrears. The Deputy Commissioner states that the collections during the first half of 1889—90 justify the estimates, but the Government do not consider that the increased collections during one half of the year is a sufficient guide, as the collections during the other half may fall. Moreover it is not stated whether the arrear demand for 1890—91 is the same as that for 1889—90. The increase estimated under VII Mohatarfa is particularly large. The estimates under this head will therefore be reduced by Rs. 500.

3. *VIII Rents.*—The increase under VIII Rents is chiefly due to the income expected to be realized by renting out 16 market stalls recently built by the Municipality. The estimate is passed.

4. *X Miscellaneous.*—The increase under X Miscellaneous is the result of a gross increase of Rs. 415 and of a gross decrease of Rs. 128 in the items noted in the margin. The increase in (*i*) is stated to include the sale proceeds of grass in the compounds of the District Office and Jail credited to the Municipal funds of the Town and the increase is probably due to that cause. The Deputy Commissioner was called upon in Proceedings, dated 31st January 1890, No. 9093-4—391 to quote the authority, under which the sale proceeds of grass in the compounds not belonging to the Municipality came to be credited to the Municipal funds. This explanation has not been furnished. The omission should be supplied. The increase in (*m*) contributions represents the mileage allotments made by the Public Works Department for the maintenance of Provincial and District Fund roads, transferred to Municipalities under Public Works Department Circulars, dated 16th April 1886 and 20th December 1889, Nos. 32 and 97—98 respectively. The decrease in "(*n*) other items" is due to the large amount of

Rs. 137 realized during 1388—89 by the sale of branches of trees lopped in the District Office, while during 1890—91 only a sum of Rs. 10 is expected from that source. This item also requires explanation, as the District Office compound, in which the trees stand, do not belong to the Municipality. Pending the receipt of the explanations, the estimate will be allowed to stand.

5. The income of this Municipality as now estimated amounts to Rs. 6,374. Adding to this the opening balance of Rs. 3,457 the sum available for expenditure during 1890—91 is Rs. 9,831, of which Rs. 7,283 are proposed to be expended, leaving a balance of Rs. 2,548 at the end of the year.

6. *IV Conservancy.*—The sanctioned estimate for 1889—90 was Rs. 1,416. In the Budget for 1890—91 provision is made for the two Sweepers at Rs. 5 each sanctioned in Proceedings, dated 3rd December 1889 and for an additional Peon on a salary of Rs. 5 per mensem. The Government have already in their Proceedings, dated 6th January 1890, No. 7928-9—334, declined to sanction the employment of the additional Peon and no new grounds are now put forward for his entertainment. The provision for the same will therefore be struck out and the estimate reduced to Rs. 1,536.

7. *VII Lighting.*—The provision under this head, which is the same as that sanctioned for 1889—90, consists of the cost of lighting 26 lamps at As. 8½ each per mensem and of repairs to lamps, &c. The estimate is passed.

8. *VIII Public Works.*—The Public works proposed to be executed during 1890—91 are detailed in the margin. The estimate is sanctioned.

9. *XI Miscellaneous.*—The increase under XI Miscellaneous over the sanctioned estimate for 1889—90 is in "(*d*) rewards to dog and snake-killers" and "(*h*) other items". The increased provision of Rs. 100 for rewards to dog and snake-killers is stated to be necessary, as the sum of Rs. 50 sanctioned for 1889—90 was found inadequate. The estimate will be allowed to stand; but the Government consider it excessive and the Deputy Commissioner will be requested to see that no needless expenditure is incurred. The increase under "(*h*) other items" is stated to be for the purposes named in the margin. The Deputy Commissioner is requested

to state why the Municipality should employ a Gardener for watching the District Office compound which does not belong to the Municipality, and whether the avenues for which two Watchers are proposed to be employed cannot be looked after by the ordinary Municipal establishments. The provision for unforeseen expenses is large and will be reduced to Rs. 50.

10. The closing balance is larger than 30 per cent of the receipts; but it is reported to have been specially reserved for a water supply project under consideration.

13. *VII Mohatarfa.*—The decrease under this head is small and calls for no remark.

14. *X Miscellaneous.*—The increase under this head is stated to be due to the growing demand for house sites and the increased revenue expected from their sale. The estimate is passed.

15. Including the opening balance of Rs. 2,107 the sum available for expenditure during 1890—91 is Rs. 4,060, of which Rs. 2,808 are proposed to be expended, leaving a balance of Rs. 1,252 at the end of the year.

16. *IV Conservancy.*—The charges are Rs. 504 in excess of the estimates sanctioned for 1889—90. This is due to the provision newly made for one peon at Rs. 6, one Daroga at Rs. 12, 2 Sweepers at Rs. 5 each and 2 Scavengers at Rs. 7 each per mensem. The entertainment of a Peon on Rs. 6 was sanctioned in Government Proceedings, dated 6th January 1890, No. 7928-9—334, but the Government declined to accord their sanction to the Daroga proposed, as the number of Sweepers, whose work he had to superintend was only 5. The Deputy Commissioner

now proposes to increase the number of Sweepers and Scavengers by 4 and request[8] sanction for their entertainment as well as of the Daroga. The Government observe that the annual receipts of this Municipality amount only to Rs. 2,000 in round numbers, while the usual charges amount to more than Rs. 1,700 as shown in the margin. With this financial condition, it is not proper to sanction an increase of Rs. 432 under Conservancy charges. The Government therefore sanction only the entertainment of one additional Sweeper at Rs. 5 and Scavenger at Rs. 7. The estimate sanctioned under Conservancy will then be Rs. 516.

18. *VIII Public Works.*—The estimate under this head consisting of the marginally noted works is approved. Considering the balance on hand, the Deputy Commissioner is requested to propose a further allotment of Rs. 500 for useful works.

19. *IX Charitable Grants.*—The provision under this head is for the purposes noted in the margin. The Government note that the midwife, on whose account Rs. 90 are provided, is to be *employed in 2 Municipalities, *i. e.*, Bowringpet and Malur. A moiety of her pay has to be debited to District Funds under Proceedings, No. 2614-17—136, dated 18th June 1890, and the remaining moiety amounting to Rs. 90 divided between this Municipality (Bowringpet) and Malur. The estimate of the cost chargeable to this Municipality will therefore be reduced by Rs. 45 and the remaining Rs. 45 provided in the Budget of Malur.

* Deputy Commissioner's letter dated 10th April 1890, No. 99—22.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 18th June 1890.

22. *I Octroi and II House Tax.*—The decrease under "I Octroi" and the increase under "II Tax on houses" have not been explained. The variations are however small and the estimates are passed.

23. *X Miscellaneous.*—The increase under this head is chiefly in (*m*) Contributions against which Rs. 107 are newly entered on account of "Contribution for the maintenance of the Local Fund roads". The Government observe that the Local Fund roads are transferred only to the District Head-quarter Municipalities and not to others. *Vide* Public Works Department Circular, dated 20th December 1889, No. 97—98. The Deputy Commissioner is therefore requested to state under what authority the provision is made. Probably the provision is for the maintenance of *Provincial* roads transferred to the Municipality.

24. Including the opening balance of Rs. 1,673, the sum available for expenditure during 1890—91 is Rs. 2,600, of which Rs. 1,899 are proposed to be expended, leaving a balance of Rs. 701 at the end of the year.

25. *IV Conservancy.*—The charges sanctioned for 1889—90 amounted to Rs. 252. It is proposed to increase the pay of the existing Sweepers from Rs. 4 to 5 each and to employ a Peon on Rs. 5. The increased rate of pay recommended to the existing 4 Sweepers is sanctioned. The Government in their Proceedings, dated 6th January 1890, No. 7928-9—334, declined to sanction the entertainment of the additional Peon, as there was already a Daroga to superintend the work of Sweepers. The Deputy Commissioner states that the services of the Peon are required for other purposes also, such as the collection of taxes, &c. Seeing that the fixed charges are nearly * equal to the annual receipts, the Government are not disposed to increase the establishment. The estimate will therefore be reduced to Rs. 300.

30. *II Tax on houses and VII Mahatarfa.*—The increased estimates under these two heads are stated to be based on the jamabandi. The estimates are passed.

31. *X Miscellaneous.*—The bulk of increase under this head is in the marginally noted items. The increase under (*a*) is apparently due to the increased demand for house sites; that under (*f*) school fees to the proposed establishment of an English school and that under (*n*) to the amount expected on account of the maintenance of Local Fund roads. The estimate will be passed, but the Deputy Commissioner is requested to state the authority under which any contribution is expected for Local Fund roads, which have not been transferred to Municipalities other than the District Head-quarter towns. *Vide* remarks in para 23 *supra*.

33. *IV Conservancy.*—The provision made for 1890—91 includes the pay of a Peon and 2 Sweepers proposed to be newly entertained and the increase recommended to the pay of the existing 4 Sweepers and to the hire of carts at rupee 1 each. The Government *declined to sanction the employment of the Peon on the ground that the Daroga on Rs. 5 was enough to superintend the work of 4 Sweepers. As two more Sweepers are to be newly employed and as the services of a Peon are stated to be absolutely necessary, his entertainment as well as the employment of 2 additional Sweepers and the increases to the pay of the existing Sweepers and the hire of carts, are sanctioned.

*Proceedings, dated 6th January 1890, No. 7928-9—334.

34. *VII Lighting.*—The increase under this head is due to the proposed purchase of new lamp posts at a cost of Rs. 48. The estimate is sanctioned.

35. *VIII Public Works.*—The increased provision made for works, of which the details are exhibited in the margin, is sanctioned. Considering the balance on hand, the Government consider that a larger provision should have been made under this head. The Deputy Commissioner is requested to propose a further allotment not exceeding Rs. 800. He is also requested to state why such a large well costing Rs. 1,690 is necessary.

36. *IX Charitable Grants.*—The increase under this head is mainly due to the provision for the 2 items noted in the margin. The charge allowance to the Hospital Assistant, which has already been sanctioned, will be retained. As regards the pay of the Midwife, half of it has to go to District Funds and the other half Rs. 90 divided between this Municipality and Srinivaspur, in which the Midwife is proposed to be employed. The provision will accordingly be reduced to Rs. 45, the remaining Rs. 45 being provided for in the Budget of Srinivaspur.

37. *X Education.*—Under this head a sum of Rs. 140 is provided to meet the cost of 1 Master on Rs. 15 and Contingencies for the English school proposed to be established in the Town. The establishment of the school has not been yet sanctioned in the Education Department. The provision will be retained but no expenditure should be incurred till the establishment of the school is sanctioned.

39. *I Octroi.*—The collections under this head during the first half of the year 1889—90 amounted to Rs. 107 and yet the Deputy Commissioner estimates the revenue for the year 1890—91 at Rs. 100 only. No reason is given for this reduced estimate, but it will not be disturbed, as the collections in 1888—89 were less.

40. *VII Mohatarfa.*—The estimate under this head is stated to be based on the jamabandi demand. It is sanctioned. But the low actuals in 1888—89 requires explanation.

41. *VIII Rents.*—The new estimate under this head is stated to be based on the results of the year 1889—90. The nature of the item must be explained. The Government observe that there was no estimate under this head for 1889—90 also.

42. *X Miscellaneous.*—The increase under this head is chiefly in (*m*) contributions under which Rs. 75 are entered newly on account of the mileage allotment of Provincial roads within the Municipal limits. The estimate will be passed. The Government note that a sum of Rs. 10 is entered against certain items of which "Local Cess on octroi duty" is one. His entertainment was disallowed by Government in their Proceedings, dated 6th January 1890, No. 7928-9—334, on the ground that there was no necessity for his services, as there was a Municipal Daroga who superintended the work of Sweepers. As however the Deputy Commissioner states that his services are absolutely necessary for other works also, the Government are pleased to sanction his entertainment.

49. *II Tax on Houses and VII Mohatarfa.*—The increase under these heads is stated to be due to the taxes having been recently revised. The estimates are passed.

50. *VIII Rents.*—The estimate under this head is stated to be the revenue expected from kandayam on bagayat lands within the Municipal limits. The Deputy Commissioner is requested to quote the authority under which this item of Land revenue is credited to the Municipality. If there are no special orders transferring the revenue to the Municipality, it cannot be treated as Municipal revenue.

51. *X Miscellaneous.*—The increase under this head is chiefly in (*u*) Contributions, against which Rs. 103 are entered on account of the mileage allotment for the upkeep of the Provincial and Local Fund roads in the town. The estimate will be retained but the Deputy Commissioner is requested to state the authority under which any contribution is expected for District Fund roads.

52. Including the opening balance of Rs. 2,425, the sum available for expenditure during 1890—91 is Rs. 4,257 of which Rs. 3,194 are proposed to be expended, leaving a balance of Rs. 1,063 at the end of the year.

61. *IV Conservancy*—The increase under this head compared with the sanctioned estimate for 1889—90 is due to the provision made for 2 additional peons. Of these, the Government in their Proceedings, dated 6th January 1890, No. 7928-9—334, sanctioned the entertainment of one on a salary of Rs. 5 and declined to sanction the other. No valid grounds are now shown for the entertainment of 2 peons. Provision will be made for the entertainment of one peon only.

There is more money available for expenditure and the Government will be glad if some other useful works, such as construction of wells, can be undertaken. The Deputy Commissioner is requested to consider the matter, and propose a further allotment of Rs. 2,000 if possible. The total cost of works in Statement No. II is erroneously entered as Rs. 6,596, while the correct figure is 6,896. Such mistakes should be guarded against in future.

64. *IX Charitable Grants.*—The increase under this head is due to the provision for the two items noted in the margin. The charge allowance to the Hospital Assistant has been already sanctioned and will be retained; but the provision for the pay of the midwife will be reduced by half, as the other half goes to District Funds. The estimate as now sanctioned amounts to Rs. 230.
